Charging Instructions

1. Make sure to charge the product via 220V AC cable.
2. Shut off the power switch of the product and then plug it in the power socket. LED indicators light up when the product is charging.

NOTE: Charging cannot be done before the power switch is off.

3. Charging takes 15 hours, and when charging is done, unplug the cable. Each charge lasts about seven days or more, assuming the product is used to shave 3 minutes per day.

Usage Guide

1. Make sure to charge the product before the initial use, after a long time of not using the product.

2. Slide the switch up to turn on the product.
3. Stretch your skin with one hand and shave against the beard's growing direction.
4. After use, shut off the switch and replace the cover.

Cleaning Method

1. Turn off the power switch.
2. Pull the foil holder upward and use the cleaning brush to clean the blades and the inside surface of the foil.

Safety Instructions

1. Do not charge the shaver with more than 240V voltage.
2. Do not charge for more than 20 hours.
3. Do not charge the shaver in an environment with more than 40°C or less than 0°C.
4. The razor blade is sharp, thin, and refined. Handle the device carefully when it is touching your skin.
5. Do not drop the shaver when using to avoid causing damage to the blade.
6. Do not charge or place the product under direct sunlight, near heat sources, or in wet places.
7. Never clean the shaver body with water.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
