Product Overview

The Porodo Loop Magnetic Phone Holder is an adjustable travel mount designed to securely hold your phone in place with ease. It features a clip-on design that can be easily attached to various surfaces, providing a strong and stable grip. The holder includes over 20 powerful magnets, ensuring a firm connection and keeping your phone securely in place. With its 360-degree full rotation, you can adjust your phone to the desired angle for optimal viewing. Additionally, the holder comes with a lock and unlock function for added convenience and safety. Its foldable design and carabiner hook make it highly portable and easy to carry, making it the perfect companion for your travels.

Specifications

Material	ABS + PC + Silicone + Zinc Alloy
Load Capacity	1.6kg Max
Magnets Type	N52
Magnetic Force	4000 Gauss
Product Weight	110g
Product Size	32 × 70 × 160mm (Expanded), 32 × 70 × 70mm (Folded)
Model Number	PDV2

Product Features

- a. **Strong Magnetic Hold:** The phone holder is equipped with over 20 N52 magnets, providing a powerful magnetic force of 4000 Gauss. This ensures that your phone stays securely in place even during movement, giving you peace of mind while using it on the go.
- b. **360-Degree Rotation:** The holder offers full 360-degree rotation, allowing you

to adjust your phone to any angle you need. This feature provides flexibility for optimal viewing and hands-free operation, making it ideal for navigation or watching videos.

c. Lock and Unlock Function: The holder includes a lock and unlock function, which allows you to securely fasten or easily detach your phone from the holder. This added feature ensures that your device stays safe and can be quickly released when needed.

d. Portable and Foldable Design: The holder features a foldable design for easy storage and portability. Its compact size makes it convenient to carry with you on trips, and the included carabiner hook allows for effortless attachment to bags or backpacks.

e. Clip-On Mount: The clip-on design ensures easy installation on various surfaces, such as car vents or other suitable locations. It provides a stable and secure hold, preventing any movement or slippage while in use.

f. Durable Build: Made from high-quality ABS, PC, silicone, and zinc alloy, the holder is designed to be durable and resistant to wear and tear. This construction ensures a long-lasting product that can withstand regular use.

Cleaning and Maintenance

1. Regularly clean the phone holder with a soft, dry cloth to remove dust and dirt. Avoid using rough materials that could scratch the surface.

2. If needed, lightly dampen the cloth with water to clean stubborn spots, but do not use strong cleaning products or chemicals.

3. Before placing your phone on the holder, ensure the magnetic surface is free of debris to maintain a strong connection.

4. Fold the holder when not in use to keep it compact and protect it from damage.

5. Store the holder in a cool, dry place, away from extreme heat or humidity, to ensure long-lasting performance.

6. Use a microfiber cloth for cleaning to avoid leaving scratches or lint on the holder's surface.

7. Do not submerge the phone holder in water or other liquids; only clean with a damp cloth if needed.

8. Check the holder's locking mechanism periodically to ensure it is functioning correctly.
9. Ensure the carabiner hook is securely attached and functioning properly before use.
10. Regularly inspect the magnetic surface for any dirt or debris to maintain optimal magnetic strength.

Safety Precautions

1. Do not exceed the maximum load capacity of 1.6kg to prevent damage to the holder or its magnetic system.
2. Ensure the holder is securely attached before placing your phone on it to avoid the risk of it slipping or falling.
3. Keep the magnetic holder away from sensitive items like credit cards, pacemakers, or other devices that may be affected by magnets.
4. Avoid using the holder in extreme weather conditions such as high heat or moisture, as this can impact its functionality.
5. Always make sure the lock function is engaged to prevent any accidental movement of your phone.
6. Do not place your phone on the holder if it is damaged or the magnetic force seems weak.
7. Keep the holder away from high heat sources, such as direct sunlight, to prevent damage to the materials.
8. Avoid using the holder on unstable surfaces to ensure your phone remains securely held.
9. Do not force the lock and unlock mechanism if it is stuck. If the holder becomes jammed, gently move it into position rather than forcing it.
10. Always store the holder in its folded position when not in use to prevent unnecessary wear on the moving parts.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
