## Product Overview

The Porodo Rozita Hot & Cold Face Steamer is designed to deliver a complete facial care experience through gentle, targeted steam that supports daily skin routines. Featuring both hot and cold spraying modes, it helps open pores for deep cleansing and hydration, then refreshes and soothes the skin with a cooling mist. The integrated water tank and precisely positioned mist outlet ensure consistent steam flow, while the simple mode switch allows effortless control between settings. With its compact, modern design and easy operation, the Rozita Face Steamer fits seamlessly into home skincare rituals, making facial steaming convenient, comfortable, and effective for everyday use.

## Specifications

Material	Aluminum Alloy + ABS
Rated Voltage	220V
Rated Frequency	50Hz
Power	280W
Working Time	18-20 Minutes
Water Tank Capacity	240mL
Plug Type	UK Plug
Product Weight	539g
Product Size	10 x 12.5 x 17.5cm
Model Number	PDLFSTS2025

## Product Components

## Preparation Before Use

1. When you open the package for the first time, you may notice residual water around the water tank. This is due to factory inspection, during which the inspection team checks the unit with water. This will not cause any sanitary issues.
2. Please use distilled or purified water. Due to variations in water quality, using tap water may shorten the service life of the product. For best results, distilled or purified water is recommended.

## Operation Guide

1. Turn on the power and press the power button. The face steamer will start operating. Please wait approximately 30 seconds for the steam to be released.
2. Keep the steam at least 20 cm away from the face, measured from the nozzle outlet. To ensure the steam covers the entire face, aim it toward the top of the chin.
3. When the water level is low, the steam output may change. This is normal. If the water tank is empty, steam will stop emitting from the nozzle. Please turn off the device, unplug it, and refill the water tank.
4. After the steam treatment, turn off the device and unplug it. Skin care

should be applied promptly after steaming, as leaving the skin untreated may cause dryness.

## Safety Instructions

- 1.** Do not immerse the product in water or fill it directly from a tap. Always use the designated water tank.
- 2.** Do not drop, knock, or subject the product to impact. If damaged, stop using it immediately.
- 3.** Discontinue use immediately if pain or abnormal skin or body reactions occur.
- 4.** Always place the product on a flat and stable surface during use.
- 5.** Do not plug in or unplug the power cord with wet hands to avoid electric shock or short circuits.
- 6.** Keep the product out of the reach of children.
- 7.** Do not use the product near flammable substances such as sprays, gasoline, nail polish remover, or similar liquids.
- 8.** Do not insert metal wires, objects, or foreign materials into the steam outlet.
- 9.** Do not use or store the product in bathrooms or other damp environments.
- 10.** Do not disassemble or attempt to repair the product yourself. Contact the place of purchase or an authorized service center for maintenance.
- 11.** Do not use the product on individuals who are sensitive to heat, as burns or scalds may occur.
- 12.** If the power cord is damaged, it must be replaced by qualified service personnel only.

## Prohibitions

- 1.** Pregnant or menstruating women may experience increased skin sensitivity due to hormonal changes.
- 2.** Do not use on individuals with allergies, skin diseases, dermatitis, skin sensitivity, or severe sunburn.
- 3.** Do not use on skin with damage, eczema, swelling, or similar conditions.

## Usage Guide

1. Do not use the device excessively, as overuse may cause excessive pore opening.
2. Use the product no more than once per day.
3. Each session should not exceed 10 minutes.
4. For normal skin, use 2–3 times per week.
5. For sensitive skin, use once per week.
6. Stop using it immediately if any skin discomfort occurs.
7. Apply basic skincare after use to prevent dryness caused by moisture evaporation.

## Maintenance Guide

1. Allow the product to cool down for at least 10 minutes before handling.
2. Unplug the power cord, remove the water tank, pour out the remaining water, and wipe off any water on the surface.
3. Drain the remaining water from the outlet. When draining, hold the main body carefully to keep your hands away from hot water, as it may cause burns.
4. Reinsert the cleaned water tank into the main unit.
5. Clean the device after each use to prevent the buildup of residue or impurities.
6. If the product will not be used for an extended period (more than a few weeks), remove the water tank completely. Store the unit only after it is fully dry.

## Cleaning Method

1. Install the water tank onto the main unit, then gently shake the device horizontally 3–4 times. Do not tilt the unit.
2. Remove the water tank and pour out the water from the main body.
3. Place the device back in a horizontal position and repeat the draining process 2–3 times.

## Reminders

1. Any water found inside the unit during first use is residual water from factory testing and is safe.
2. After switching on the product, wait approximately 30 seconds for normal steam operation.
3. As the product is brand new, a slight odor may be present during the first few uses. This will disappear after 2-3 uses.
4. Only clean water should be added to the water tank. Do not add milk, herbal medicine, flower petals, or other thick substances, as they may cause blockage or damage.
5. The device will automatically power off after 20 minutes of continuous operation. Press the power button again to restart if needed.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
