2. Bluetooth status: When sending Bluetooth, the LED will be on when the button is pressed. The LED will turn off when the button is released.

Troubleshooting

1. No display after powering on?

Ensure your device is properly connected to the TV and the correct HD input is selected in your TV settings.

2. TV has images but no sound?

Ensure your TV is not muted and that the volume is set to an appropriate level.

3. Failed to connect to the network?

Ensure the Ethernet cable is securely connected. Verify that your Wi-Fi is functioning and that the box has a strong signal from your router.

4. Remote control failure?

- a. Replace the battery in the remote control with a new one, ensuring it is placed in the correct polarity.

- b. Make sure the remote control is within range of the TV box.

- c. Go to the Settings menu to unpair and re-pair the remote control.

Note: Please use our accessories to avoid any risks.
