Product Overview

The Porodo Tekto USB-A Wall Adapter with a 1-meter USB-A to Lightning Cable offers quick and reliable charging with an 18W output, making it ideal for fast charging your devices. Its universal compatibility ensures it works with various devices, while the flame-retardant housing provides enhanced safety during use. The included cable allows you to connect easily to your devices for efficient and fast charging, while the compact design makes it portable and convenient for travel. This adapter is a great solution for users who require both speed and reliability in their charging needs.

Specifications

Material	PC
Rated Voltage	AC 110-240V
Rated Frequency	50/60Hz
Rated Current	0.4A Max
USB-A Output	5V/3A, 9V/2A, 12V/1.5A, 18W
Cable Included	1m USB-A to Lightning Cable
USB-C to Lightning Cable Output	9V/3A
Plug Type	UK Plug
Product Weight	50g (Adapter)
Product Size	37.5 x 40 x 64.5mm
Model Number	PDFWCH109

Product Features

a. 18W Fast Charging

The Porodo Tekto USB-A Wall Adapter delivers 18W of power, enabling faster charging speeds for your devices. With this high power output, you can charge your phone or tablet more quickly, saving you time and keeping your devices ready for use sooner.

b. Universal Compatibility

This adapter works with a wide range of devices, ensuring that you can charge your phone, tablet, or other USB-compatible devices without the need for multiple chargers. It's a versatile option for users with different types of electronics, offering the convenience of one charger for all your needs.

c. Flame Retardant Housing

The adapter is built with a flame-retardant housing, providing an additional layer of protection against overheating or electrical faults. This ensures the safety of both the user and the device being charged, making it a reliable and safe choice for everyday use.

d. 1m USB-A to Lightning Cable

Included with the adapter is a 1-meter USB-A to Lightning cable, perfect for charging Apple devices such as iPhones and iPads. The cable's length provides flexibility, allowing you to charge your device comfortably without being restricted by a short cord.

e. Compact and Portable Design

The Tekto USB-A Wall Adapter features a small, lightweight design that makes it easy to carry around. Whether you're at home, in the office, or traveling, you can easily pack it in your bag or suitcase without taking up much space. Its portability is a great feature for users on the go.

f. Reliable and Durable Construction

Designed with long-lasting use in mind, this adapter is built to withstand daily wear and tear. Whether you're using it at home or on the move, the robust construction ensures that it continues to perform well over time, offering consistent and reliable charging.

Safety Instructions

- 1.** Do not leave your device connected to the charger once it's fully charged. Overcharging can cause overheating and potentially damage both the charger and your device. Always unplug your device after it has reached 100%.
- 2.** For optimal safety, always use the charger in a dry environment. Avoid using it in areas with excessive moisture or humidity to prevent any risk of electrical shock or short circuit.
- 3.** Inspect the charger and cable regularly for signs of wear or damage. If you notice frayed wires, exposed components, or any physical damage, stop using the product immediately. A damaged charger can be a fire hazard or cause electric shock.
- 4.** To avoid fire hazards, always keep the charger away from flammable materials such as paper, fabric, or other combustible items. Never leave it plugged in when not in use for extended periods.
- 5.** When plugging in or unplugging the charger, do so gently to avoid damaging the USB port or the device. Applying excessive force can break the port, causing a malfunction or even damage the device.
- 6.** Use the charger in well-ventilated areas to prevent overheating. Avoid placing it in tight, enclosed spaces where heat can build up, as this can affect performance and potentially lead to a safety issue.
- 7.** Always ensure the charger is used with devices that are compatible with the 18W charging output. Using it with devices that do not support this charging speed can result in inefficient charging and potential device damage.
- 8.** To avoid any potential risk of electrical shock or choking hazard from small parts, keep the charger and cable out of reach of children. Always supervise children if they are near electrical devices.
- 9.** Do not attempt to open, modify, or repair the charger. Any alterations to the charger's design or internal components could pose safety risks and void the warranty.
- 10.** Do not expose the charger to extreme heat or direct sunlight for prolonged periods. Heat can cause the charger to overheat, reducing its lifespan and

potentially causing safety hazards. Store the charger in a cool place when not in use.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
