Specifications

Material	PC
Rated Voltage	AC 180-240V
Rated Frequency	60/50Hz
Rated Current	0.3A Max
USB-A1 Output	5V/2.4A, 12W
USB-A2 Output	5V/2.4A, 12W
Plug Type	UK Plug
Product Weight	50g (Adapter)
Product Size	37.5 x 40 x 64.5mm
Model Number	PDFWCH110

Product Features

a. Dual USB-A Ports: The Tekto Dual USB-A Wall Adapter features two USB-A ports, allowing you to charge two devices at the same time. This is ideal for

those who need to power up their phone, tablet, or other electronics simultaneously, making it a perfect choice for busy environments.

b. 12W Fast Charging: With a total output of 12W, the adapter delivers fast charging speeds, ensuring your devices are powered up in less time. This helps save time, especially when you're in a rush or need to quickly charge multiple devices before heading out.

c. Flame-Retardant Housing: The adapter is built with a flame-retardant housing, providing an added layer of safety. This feature ensures the device remains cool and secure, even under heavy usage, reducing the risk of overheating and electrical hazards.

d. Compact and Portable Design: The small and lightweight design makes this adapter easy to carry around. Its portable nature ensures that you can easily slip it into a bag or pocket, making it a great travel companion for on-the-go charging needs.

e. Universal Compatibility: The Tekto Dual USB-A Wall Adapter is compatible with a wide range of USB-powered devices, including smartphones, tablets, and wireless accessories. This makes it a versatile choice for anyone looking for a reliable charging solution for various electronics.

f. Efficient Power Distribution: The adapter intelligently distributes power between both ports, ensuring that each device receives the optimal amount of power. This not only maximizes charging efficiency but also helps protect your devices from overcharging or damage.

Safety Instructions

1. Do not exceed the recommended charging capacity of the adapter (12W). Overloading may lead to overheating, which could damage the adapter or your devices.

2. Ensure the adapter is used in dry environments. Avoid using it in areas with high humidity or near water sources to prevent electric shock or damage to the device.

3. Always plug the adapter into a properly grounded power outlet. Do not force

the adapter into the socket if it does not fit. Ensure it is securely connected before use.

4. To prevent the risk of fire, always keep the adapter away from flammable materials or surfaces. Ensure that the adapter has adequate space for ventilation during use.

5. Do not leave your devices plugged in overnight or unattended for extended periods while charging. Always monitor the charging process to avoid any safety hazards.

6. Regularly inspect the adapter for any visible damage, such as frayed cables, exposed wires, or cracks. If you find any damage, stop using the adapter immediately and replace it.

7. Always ensure your hands are dry before handling the adapter or plugging it into the power source to prevent electric shock.

8. To prevent energy wastage and reduce the risk of overheating, unplug the adapter when it is not in use.

9. Only use cables and devices that are compatible with the adapter. Using unauthorized or damaged cables may cause a malfunction or pose a safety risk.

10. The adapter should not be opened or tampered with. If you experience any issues, contact the manufacturer or a certified technician for assistance.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are

designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
