K Preface

Thank you for choosing the Porodo FROSTIQ Portable Ice Cube Maker. Designed for home, car and outdoor use, this compact appliance quickly produces fresh ice cubes wherever you go – keeping your drinks cold at the campsite, in the car, or on your kitchen counter.

K Package Contents

1. FROSTIQ Portable Ice Cube Maker x1
2. AC Adapter x1
3. Car Adapter x1
4. Ice Removal Bar x1
5. User Manual x1

K Safety Precautions

Warning:

1. Use only with the supplied AC power cord or car adapter; do not substitute other power sources.
2. Do not immerse the appliance, power cord, or plug in water or any liquid.

3. Do not operate with a damaged cord, plug, or housing; contact qualified service for repair.
4. Keep the appliance and cord away from children during operation.
5. Do not touch internal moving parts or the freezing plate while the unit is running.
6. Fill the water tank with clean drinking water only; never use milk, juice, or other beverages.
7. Do not exceed the marked 90 mL water tank capacity.
8. Do not operate the appliance empty or without the water tank properly installed.
9. Unplug immediately if smoke, unusual noise, or overheating occurs.
10. When using the car adapter, ensure the vehicle's 12V socket is rated for at least 120W to avoid overheating or fire.
11. Do not place the appliance near open flames, stoves, or other heat sources.
12. Keep ventilation openings clear; do not block airflow around the unit.
13. Always unplug the appliance from the power source before cleaning, servicing or moving it.
14. Do not open, disassemble, modify or attempt to repair the housing or sealed refrigeration system; refer all service to qualified personnel, as the system contains refrigerant.
15. This appliance is not intended for use by children under 8 years of age, or by persons with reduced physical, sensory or mental capabilities, unless they have been given supervision and instruction concerning safe use.
16. The AC adapter is for indoor, dry-location use only; do not expose it to moisture, rain or wet environments.
17. Do not use extension cords, adapter multipliers, or damaged 12V vehicle sockets to power the appliance; connect only to a properly rated outlet.

Attention:

1. Place the appliance on a flat, stable, dry surface before use.
2. Allow several minutes between cycles for the compressor to rest.
3. Empty and clean the water tank regularly to prevent bacterial buildup.
4. Wipe the ice compartment and exterior with a soft damp cloth; do not use abrasive cleaners or solvents.
5. Drain all water from the tank before transporting or storing the appliance.
6. Store in a cool, dry place away from direct sunlight.
7. Let the unit stand upright for at least 2 hours before first use after transport.
8. Do not tilt or move the appliance while it is operating.

9. Before use, discard the first batch of ice and rinse the water tank; the first batch of ice produced by a new unit should not be consumed.

10. Operate the appliance in ambient temperatures between 10 °C and 38 °C, and store between -10 °C and 50 °C in a dry location.

Top Refill Opening

Water is added directly through the top refill opening for fast, mess-free filling. The tank has a 90 ml capacity and the front indicator light shows operating status.

- 1.** Top water refill opening **2.** Ventilation grille **3.** Status indicator light

Usage and Care Instructions

1. Setup

Place the ice maker on a flat, stable and dry surface with clearance around the ventilation grilles.

Connect the unit using either the AC adapter for home use or the 12V car adapter for in-vehicle use.

Open the top refill opening and pour clean drinking water into the tank (90 ml capacity).

2. Making Ice

Close the top cover and press the On/Off button (1) to start ice production.

The unit produces square ice cubes per batch in approximately 10 minutes.

When the batch is ready, use the auxiliary ice removal bar to lift out the cubes.

3. After Use

Turn the unit off and disconnect the power source.

Empty any remaining water from the tank.

Wipe the interior and exterior with a clean, soft cloth and allow to dry before storage.

Specifications

Ice Production Speed	10 min per batch
Ice Type	Square Ice Cubes
Water Tank Capacity	90 mL per fill
Power Supply	220V AC / 12V DC
Included Accessories	AC Adapter, Car Adapter, Ice Removal Bar
Rated Power	120W
Noise Level	<45 dB
Product Material	Food Grade ABS + Aluminium Alloy
Product Weight	2.05 kg
Package Dimensions	24.5 × 19.0 × 17 cm
Model Number	PDLFSTZBJ04

Features

1. Fast ice making – one cycle in about 10 minutes
2. Auxiliary ice removal bar for easy lifting of cubes
3. Convenient top refill and easy-clean design
4. Multiple power supply options – AC adapter and 12V car adapter

5. Compact, portable design for home, car and outdoor use
6. Low-noise, energy-saving performance
7. Food-grade ABS and aluminium-alloy construction

Maintenance Tips

1. Cleaning

Always disconnect the power before cleaning.

Empty the water tank after each use to keep the interior fresh.

Wipe the housing with a soft, damp cloth – do not use abrasive cleaners or solvents.

Rinse the ice tray area with clean water and dry thoroughly.

2. Storage

Ensure the unit is completely dry before storing.

Store in a cool, dry place away from direct sunlight.

Keep the adapters together with the unit to avoid loss.

Frequently Asked Questions

1. How long does it take to make a batch of ice?

The FROSTIQ produces a batch of ice cubes per cycle in approximately 10 minutes.

2. Can I use it in my car?

Yes. The unit includes a 12V car adapter so it can be powered from a standard vehicle outlet, in addition to the AC adapter for 220V home use.

3. What type of water should I use?

Use clean drinking water only. Do not add flavoured or carbonated liquids, as these can damage the ice-making system.

4. How do I remove the ice cubes?

Use the included auxiliary ice removal bar to lift the cubes at once – simply press it down onto the tray and lift.

5. How much water does the tank hold?

The water tank capacity is 90 ml, which is sufficient for one full batch.

6. Is it noisy during operation?

No. The FROSTIQ is engineered for low-noise, energy-saving performance, keeping it under 45 dB during use.

Troubleshooting

Problem	Solution
Unit does not turn on	Check that the AC or car adapter is fully connected and that the outlet is live.
No ice is produced	Ensure the water tank has been filled with clean water and the top cover is closed.
Ice cubes are stuck in the tray	Use the auxiliary ice removal bar to lift the cubes free; avoid overfilling the tank.
Water leaks from the unit	Confirm the tank is not overfilled and that the unit is on a level surface.
Unit is warm to the touch	This is normal during operation; keep the ventilation grilles clear of obstructions.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our Porodo website or shop come with a 24-month warranty.

When you buy Porodo products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at www.porodo.net/warranty and fill out the form with your information. Don't forget to upload a picture of the product too. After we have checked and accepted your request, we will send you an email to confirm that your product's warranty has been extended.
