Product Overview

The Porodo Electric Facial Hair Remover is a sleek and efficient grooming tool designed for precision and comfort. Featuring a 360° LED light, it ensures optimal visibility, allowing for a smooth and gentle shaving experience suitable for all skin types. The built-in LED light enhances precision, while the precision shaving tip ensures effective removal of unwanted facial hair, including the eyebrows. With a protective cover to maintain hygiene and a compact, stylish design, this trimmer is both practical and convenient for everyday use. Ideal for those seeking a smooth and flawless finish, this tool offers a safe and easy solution for facial hair removal.

Specifications

Input	DC 5V/1A
Rated Power	0.6W
Battery Capacity	180mAh
Working Time	80 Minutes
Charging Time	120 Minutes
Charging Interface	Type-C
Motor Speed	10000RPM

Product Size	26 × 26.7 × 106mm
Product Weight	43g
Model Number	PDLFST1012

Product Features

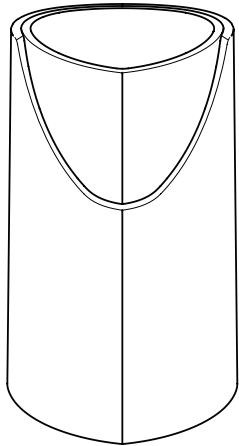

- A. 360° LED Light:** The integrated 360° LED light ensures maximum visibility, helping you achieve a flawless result even in low-light conditions. This feature allows for precise grooming, especially in delicate areas like the eyebrows and upper lip.
- B. Gentle & Smooth:** Designed for all skin types, this facial hair remover offers a gentle shaving experience without causing irritation or discomfort. Whether you have sensitive skin or normal skin, it provides a smooth and effortless removal process, leaving your skin soft and hair-free.
- C. Precision Shaving Tip:** The precision shaving tip is specifically crafted to target smaller areas with accuracy, such as eyebrows and the upper lip. This allows for precise control, ensuring no hair is missed while maintaining a clean, well-groomed look.
- D. Protective Cover:** The device includes a protective cover that shields the shaving tip when not in use. This feature ensures that the trimmer stays clean and hygienic, while also protecting the shaving head from damage.
- E. Built-In LED Light:** The built-in LED light enhances visibility, allowing for a more detailed shave. This ensures that you can confidently groom even the most intricate areas, making it easier to achieve a professional-level result.
- F. Compact & Stylish Design:** The sleek, modern design makes this facial hair remover not only practical but also stylish. Its compact size makes it easy to

carry, whether you're traveling or simply storing it in your bag for quick touch-ups on the go.

Shaving Guide

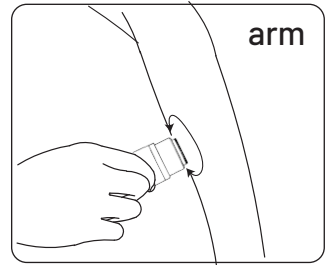

1. Turn on the shaver and activate the light mode
2. Face: Tighten the skin and move the razor along the skin to trim the facial hair.
3. Arms: Run the razor in a circular motion along the hair on your arm for an even trim.
4. Back: Use the razor to shave the back hair, moving it up and down for effective removal.
5. Legs: Move the razor along the leg in the direction of hair growth, then switch to the opposite direction for a smoother result.
6. Power Off: After use, press the switch to turn off the shaver's power source.

Eyebrow Trimmer

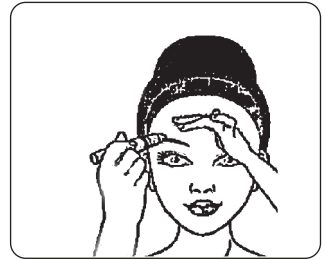

- 1. Turn On:** In the shutdown state, turn the shaving head counterclockwise to open.
- 2. Replace Head:** After replacing the eyebrow shaving head and tightening it clockwise, gently touch the key to open it.
- 3. Shaving:** Apply gentle pressure to the skin and move slowly around the eyebrow for precise trimming.

Cleaning

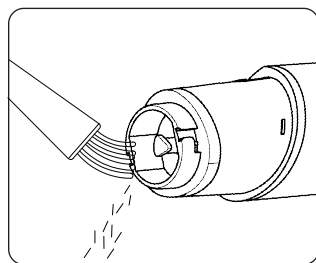

- 1.** Shut down the shaver and turn the shaving head counterclockwise to open.
- 2.** Use the cleaning brush head to clean the hair residue.
- 3.** Clean the fuselage storage bin with the cleaning brush head.
- 4.** Use clean water to wash the cutter head, but do not wash the fuselage.
- 5.** Wait until there is no water on the surface of the shaver head.
- 6.** Put the shaver head on the machine, turn in clockwise and cover it with protective cover.

Safety Precautions

- 1. Power Off Before Cleaning:** Always turn off the power before cleaning the device.
- 2. Avoid Moisture Exposure:** Ensure that the machine does not come into contact with moisture. Prevent water from entering the device while cleaning.
- 3. Humidity:** Do not place the product in a humid environment, such as a bathroom or near a sink, for extended periods.
- 4. Cleaning Materials:** Avoid using sharp, corrosive, or volatile chemicals for cleaning. Use only mild cleaning agents if necessary.
- 5. Cleaning the Cutter Head:** The cutter head can be rinsed with water, but the body of the product should not be exposed to water. Use a damp cloth or cotton pad to gently wipe the surface.

- 6. Storage Conditions:** Store the product in a cool, dry place to avoid damage from extreme temperatures or humidity.
- 7. Electrical Safety:** Never attempt to clean the device while it is plugged in or connected to power.
- 8. Skin Irritation:** Stop using immediately if any skin irritation or abrasions occur.
- 9. Charging Voltage:** Ensure the adapter's voltage does not exceed 6V during charging, as higher voltages will prevent proper charging.

Charging Instructions

1. Power Off

Tap the switch to turn the device off.

2. Connect to Power

Plug the USB Type-C charging cable into the bottom port of the device.

3. Charging Indicator

a. While charging, the LED indicator will show red. Once fully charged, the LED indicator will turn green.

b. When the battery is low, the LED indicator will flash green.

NOTE: Ensure the adapter voltage does not exceed 6V. Please confirm the adapter specifications before use.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
