$\phi 8$ X $\phi 14$ X6 Spacer x 4

I: M8 x 12 Inner-hexagon x 8

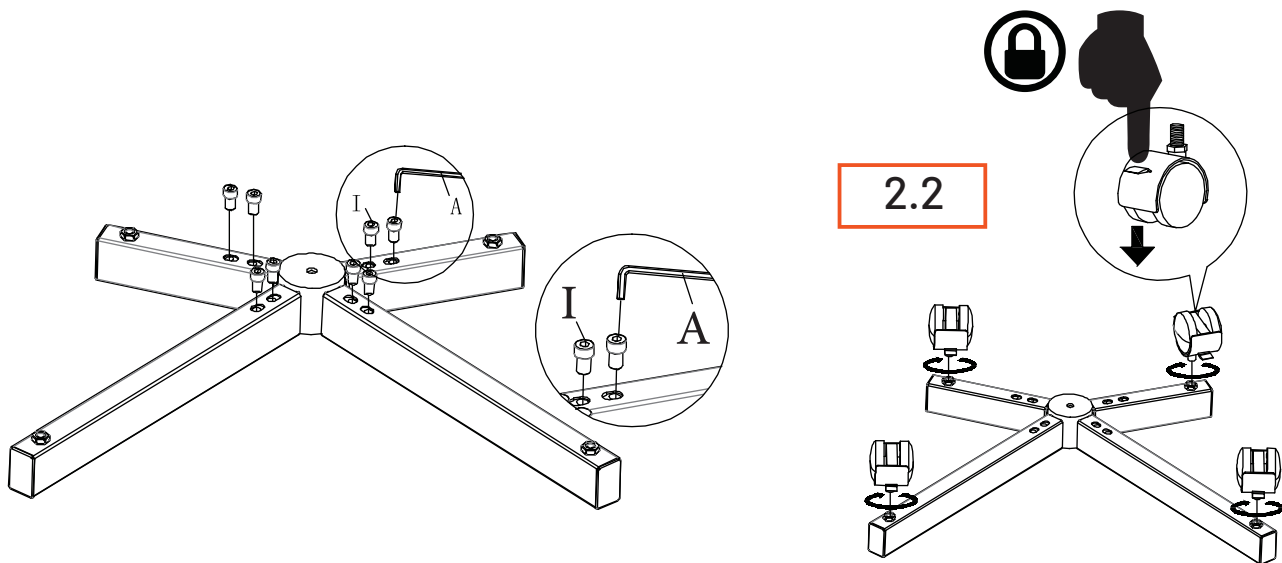

Step 1

Installation of the Base

Begin by inserting the long square tubes and the short square tubes into the welded base. Ensure to match the tubes to their corresponding slots labeled "1 to 1" and "2 to 2".

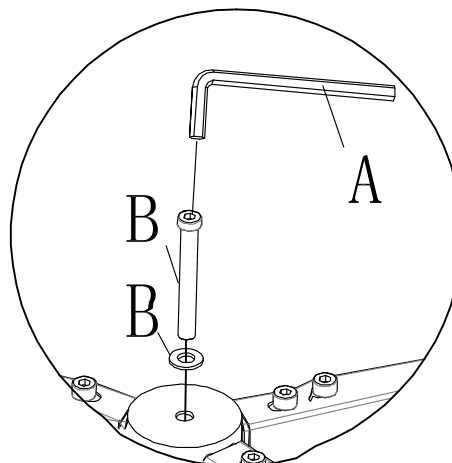

Once in place, securely tighten screw **I** using wrench **A** as indicated in the inset image.

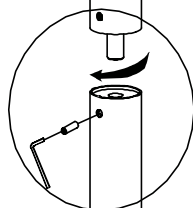

Step 2

Installation of Fixing Cover/ Column/ Base

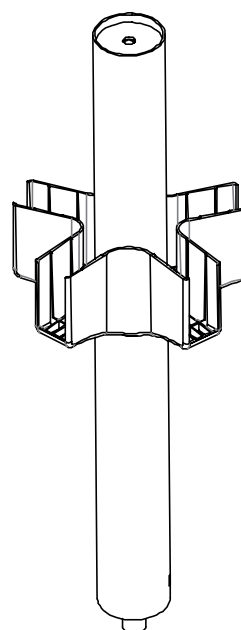

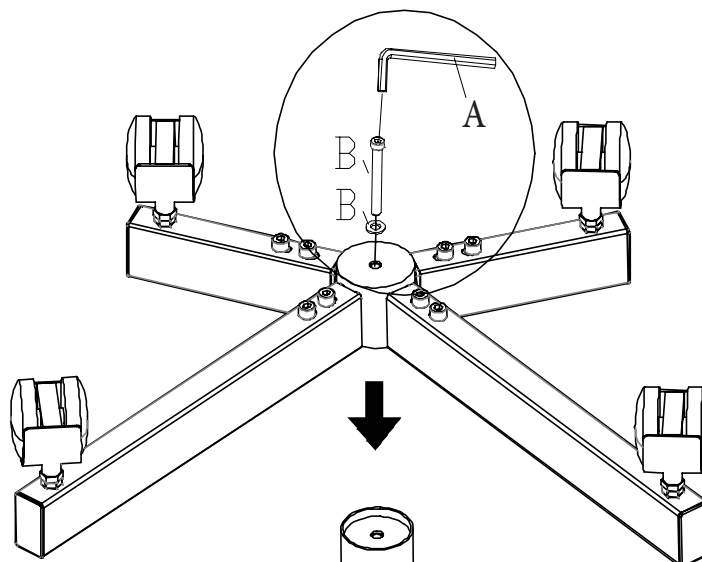

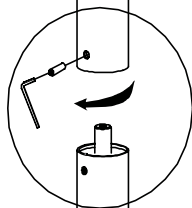

2.1

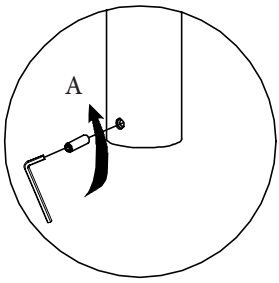

2.3

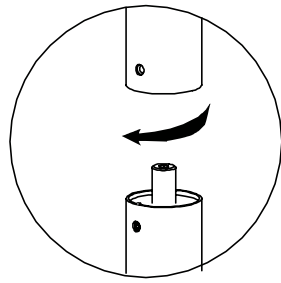

2.2

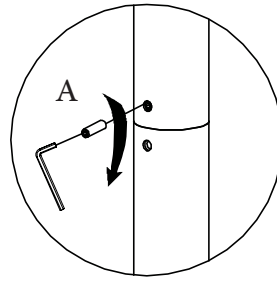

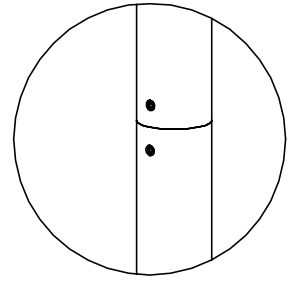

2.2.1

2.2.2

2.2.3

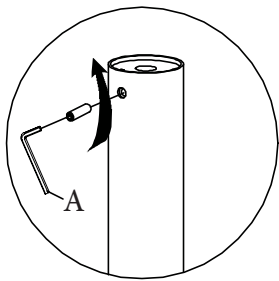

2.2.4

2.2.1 Use the wrench **A** to loosen the screw on the column.

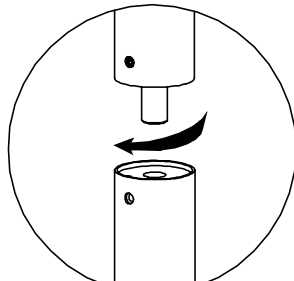

2.2.2 Install the first column on the second column and check the stability of the two columns.

2.2.3 Re-insert and tighten the screw using the wrench **A**.

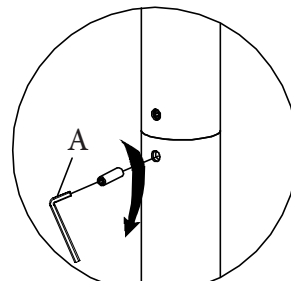

2.2.4 The installation is completed.

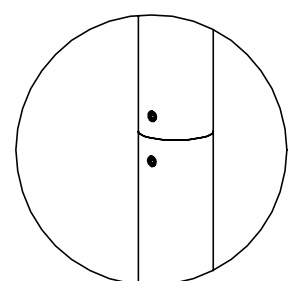

2.3.1

2.3.2

2.3.3

2.3.4

2.3.1 Use the wrench **A** to loosen the screw on the column.

2.3.2 Install the second column on the first column and check the stability of the two columns.

2.3.3 Re-insert and tighten the screw using the wrench **A**.

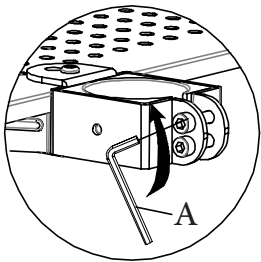

2.3.3 The installation is completed.

Step 3

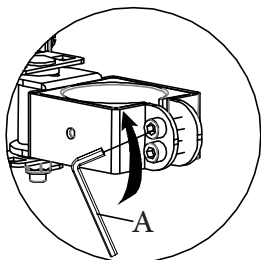

Installation of Tray Locking Bracket/ Head Locking Bracket

Caution

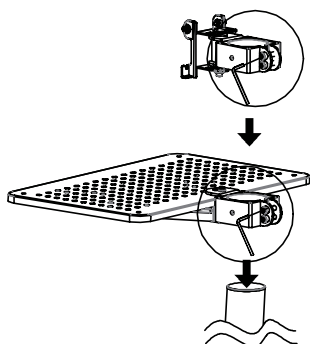

Ensure the head locking bracket is on the same side as the long tubes to prevent the structure from tipping over.

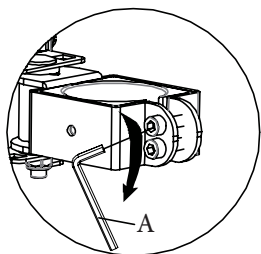

4.1 Loosen the tray locking bracket screws using wrench **A**.

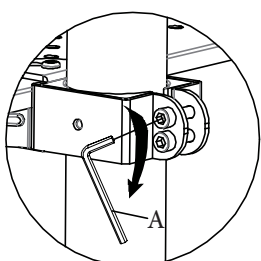

4.2 Loosen the head locking bracket screw using wrench **A**.

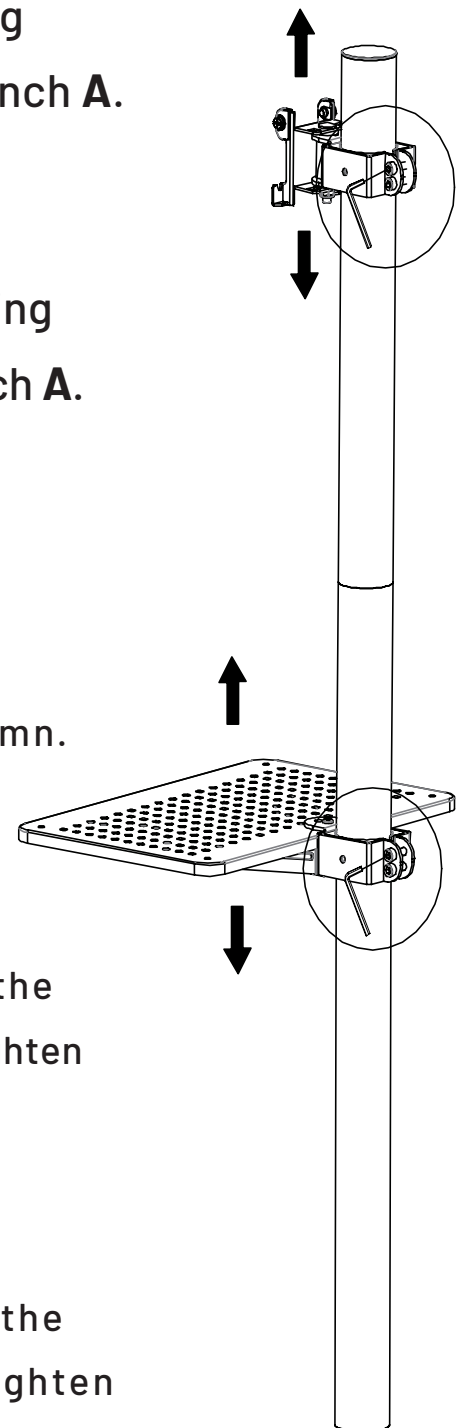

4.3 Move the tray locking bracket and install the head locking bracket on the column.

4.4 Adjust the position of the head locking bracket and tighten the screw using wrench **A**.

4.5 Adjust the position of the tray locking bracket and tighten the screw using wrench **A**.

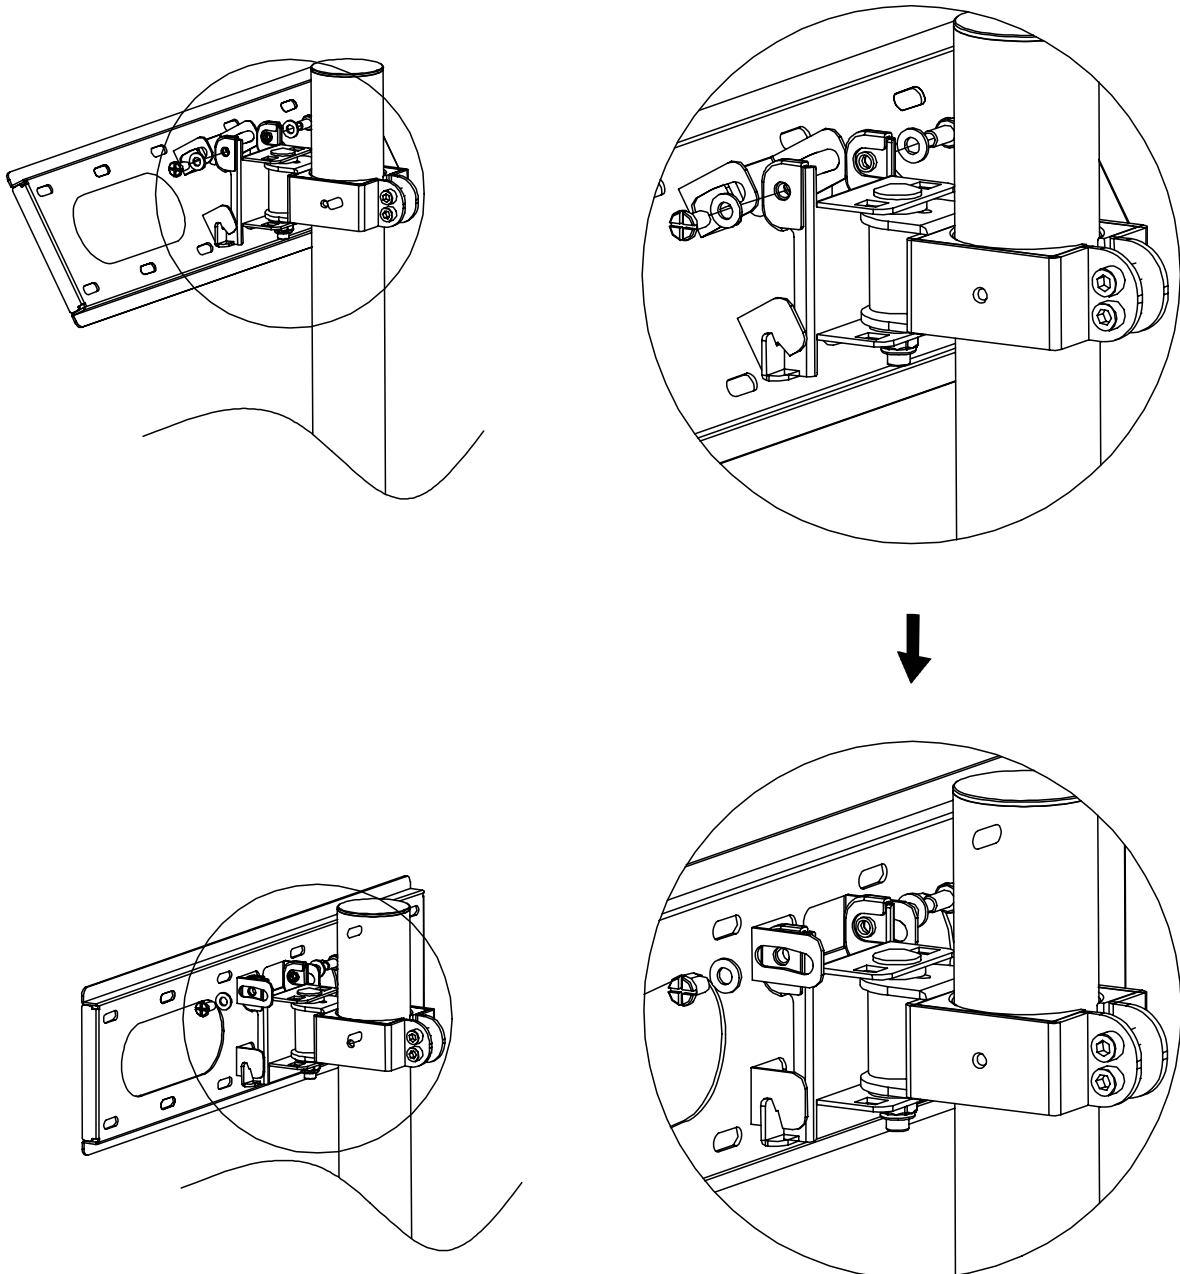

Step 4

Installation of Panel and Stand

Discard the screw from its initial position.

Install the panel on the column.

Tighten the screws.

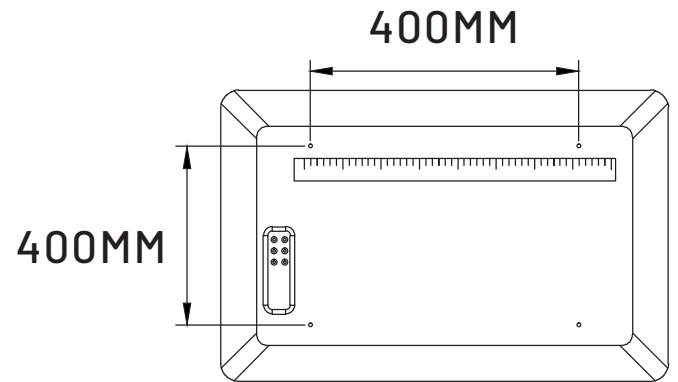

Complete the installation according to the picture.

Step 5

Installation of the TV and Hooks

To start the process of installing the TV and hooks, check the VESA pattern on the back of the TV.

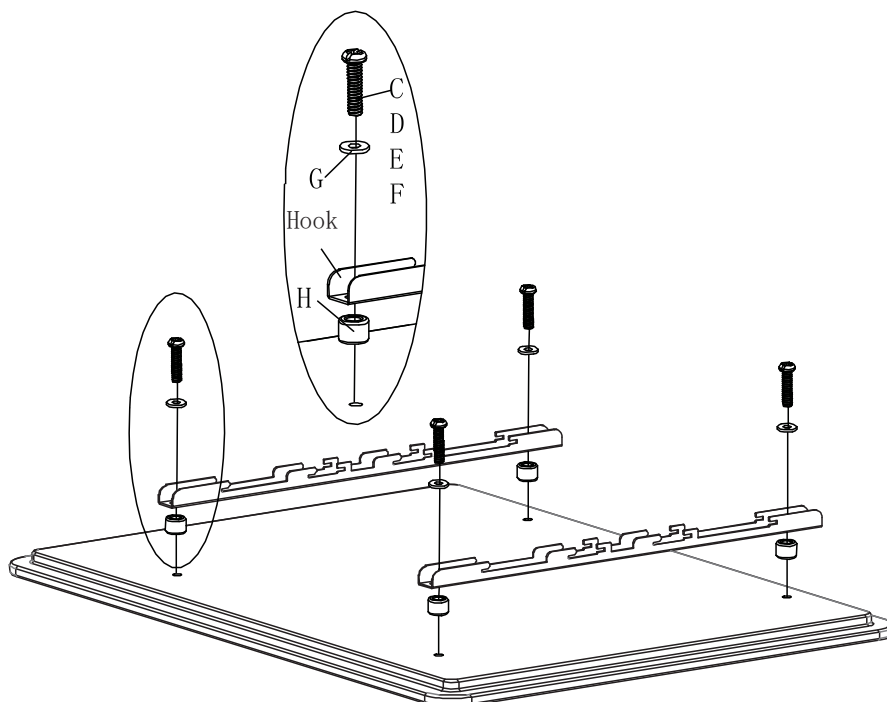

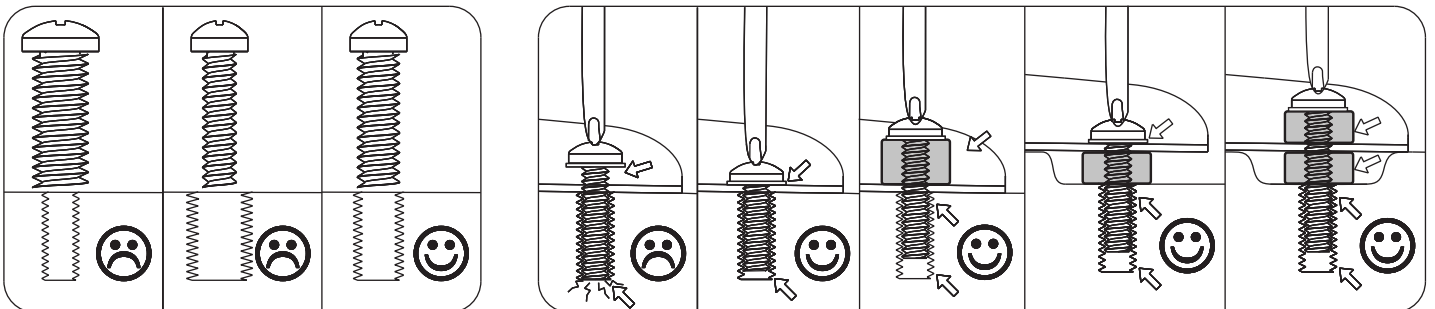

! Caution

Use the appropriate screw size.

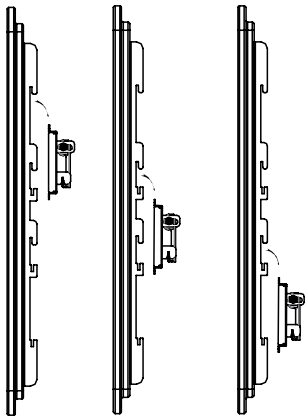

Leave room between the screw and the back of the.

Use larger spacers for screws with higher lengths.

Step 6

Installation of the TV and Stand

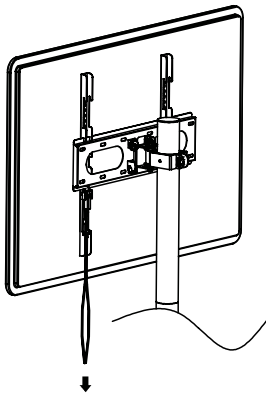

6.1

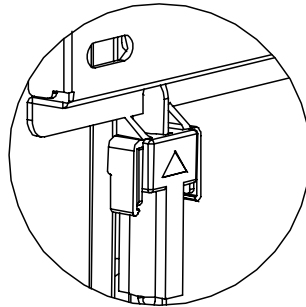

6.2

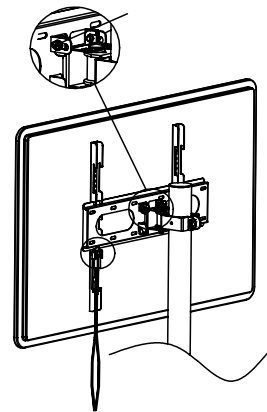

6.3

6.4

6.5

6.6

6.1 Place and install the hooks on the panel. The hooks can be placed on three different heights.

6.2 Insert the spring fastener inside the spring buckle.

6.3 Complete the insertion of the spring fastener.

6.4 Pull the cord after the hooks are correctly mounted on the panel.

6.5 Upon pulling the cord, the spring fastener will automatically move to its secure position in the panel. The installation is now complete.

6.6 To set the desired TV angle alter the screw tightness, as depicted in the picture.

Note: You might need assistance for lifting the TV.

Warranty

Products that you buy directly from our Porodo website or shop come with a 24-month warranty.

When you buy Porodo products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
