USB-C Charging Cable ×1

Schematic View

Instructions for Use

1. Power on your computer.
2. To initiate pairing in Bluetooth mode, simultaneously press and hold the left, middle, and right buttons for three seconds.
3. The bottom indicator will flash rapidly.
4. Enable your device's Bluetooth search and look for "BT5.0".
5. Select this option to connect and pair the equipment for usage.
6. The USB receiver can be disconnected or reconnected at any time, even while the computer is in use.

Battery Display

The power indicator is located at the top right corner of the PCB board. The battery level is indicated as follows:

- A.** 4 lights $\approx$ 100 %
- B.** 3 lights $\approx$ 75 %
- C.** 2 lights $\approx$ 50 %
- D.** 1 light $\approx$ 25 % (displayed in white).

The lights will remain on for 10 seconds before they automatically turn off.

Mouse Sleep/Wake Up Mode

If the mouse has been inactive for 10 minutes, it will enter deep sleep mode. To wake it up, press any mouse button.

Specifications

DPI Settings	800/1200/1600

RGB Light Guideline

1. Activate the mouse by turning on the switch.
2. Upon successful connection, press the bottom lighting mode switch key to enable the light mode.
3. There are "1 + 11" lighting modes available; press and hold to cycle through the light effects.
4. To deactivate the light mode, press and hold the same button.
5. Continue holding to switch between the "11" different light effects.
6. If the mouse is not used for 10 minutes, it will go into standby mode, and all lights will be turned off.
7. Once the mouse has entered sleep mode, pressing any button will reconnect it, and the lights will automatically activate.

Troubleshooting

Problem 1. Why can't my device find the mouse?

Solution. Ensure that you have turned on the mouse using the switch button and held the button for 5 seconds.

Problem 2. Is this mouse compatible with a Huawei laptop?

Solution. Yes, this mouse is compatible with iOS, Mac, Android, Windows, as well

as smartphones, tablets, and computers.

Problem 3. How long should I charge the mouse?

Solution. Typically, our mouse can be used for 15 days without the RGB lighting enabled, or for 8 hours a day with RGB mode active.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
