Dimensions

Product Overview

Note:

It is recommended to use standard and certified adapters that provide an output of 20W and higher.

Indicator Light Status

The charger is plugged in: Solid blue light. ●

Stand by mode is active: Solid blue light. ●

Charging status: Solid red light. ●

Fully-Charged status: The red light is off.

FOD (Foreign Object Detection) / Malfunction: Blinking blue and red light.

FOD (Foreign Object Detection)

The blinking blue and red light indicates that a metallic foreign object is detected placed on the wireless charger. 

✗ Do NOT place metallic objects on the charger.
The Magsafe wireless charger only supports compatible devices.

⚠ Caution: Please remove all metal objects from the back of your phone prior to charging.

⚠ Caution: Do not place any credit card on the charging pad to prevent damage or demagnetization.

-  Do not shake the product while operating.
-  Remove the charging devices when fully charged.

-  Do not expose the product to liquids.
-  Keep the charger away from children.
-  Avoid exposure to extreme temperatures.
-  Use a certified and standard cable.

FCC Statement

This device is compliant with Part 15 of the FCC Rules. Operation is conditional upon the following two criteria:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide protection against harmful interference in a residential installation.

FCC Radiation Exposure Statement

This equipment generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by employing any of the following measures:

1. Reorient or relocate the receiving antenna.
 2. Increase the distance between the equipment and the receiver.
 3. Plug the equipment into an outlet on a circuit different from that to which the receiver is connected.
 4. Seek assistance from the dealer or an experienced radio/TV technician.
- This equipment adheres to the FCC radiation exposure limits established for an uncontrolled environment. It should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
