

Gaming PS5

Gamepad Controller

SKU:PDX626

Compatible With

PS5 Wireless Controller

Notice

1. Disconnect the wireless controller when not in use to conserve power.
2. If the battery box remains closed upon controller insertion, remove and reinsert the controller.

Specifications

Input Interface	USB-C
Controller Charging Port	Type-C
Input	DC5V 1A
Output	Type-C 5V 1A
Charge Time	3 Hours
Dimensions	60*37.5*14mm
Weight	50g
Battery Capacity	1800mAh

Indicator Light

- Blue light indicates charging.
- Flashing blue light signifies battery below 25%.
- Solid blue light when fully charged.

Operation Function

1. Upon connecting the charger, the battery box activates, and the PS5 controller detection and charging process begins. The battery indicator will cease to flash once the controller is fully charged.
2. The charger's removal triggers automatic controller detection, which resumes charging if the controller is connected.
3. The battery box closes after 30 seconds if the controller is disconnected.
4. A low battery triggers the indicator to flash.
5. The system will shut down when the battery is depleted.
