## Dual Light - Clip With Motion Sensor

SKU:PD-LFSCPL-GY

### Clip On Hat Light

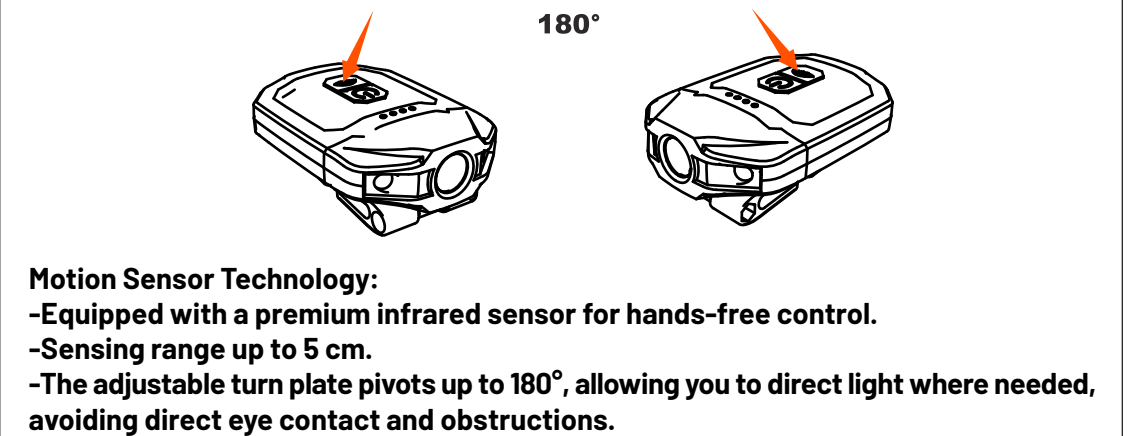

#### High Output & Lightweight Design:

- Maximum Brightness: 200 lumens for Floodlight, 150 lumens for Spotlight.
- Compact Build: Weighs just 43.5g with a slim profile of 27mm thickness for enhanced comfort.

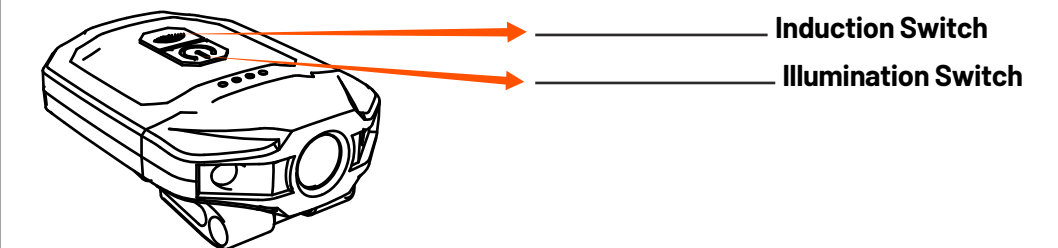

#### Hands-Free Cap Light and Clip Headlamp:

- The lamp body connects seamlessly, offering a waterproof design.
- Can be attached as a cap light or used with the included head strap.
- Ideal for a variety of activities like fishing, camping, running, mountaineering, cycling, emergency situations, reading, and more.

#### Motion Sensor Technology:

- Equipped with a premium infrared sensor for hands-free control.
- Sensing range up to 5 cm.
- The adjustable turn plate pivots up to 180°, allowing you to direct light where needed, avoiding direct eye contact and obstructions.

#### Versatile Lighting Modes:

- Combination of LED-SMD in white and red lights.
- Features include white SMD light, red light on SMD, and red light flash.
- A long press on the induction switch dims the light, with a red indicator confirming the activation of the sensor mode.

#### Convenient Usage and Control:

- Induction and standard switches for easy operation.
- Input: 5V 1A for reliable and safe charging.

Input 5V 1A

#### Efficient Charging and Long Battery Life:

- Equipped with a Type-C charging port.
- Quick charge times: 2 hours for the Floodlight, and 2 hours for the Spotlight.
- Prolonged use times: up to 3 hours for the Floodlight and 4 hours for the Spotlight.
- The efficient battery negates frequent charges, ensuring lasting lighting for extended use.
