

ALUMINUM MULTI-FAN COOLING PAD

SKU:PDX117

Product Specifications

Dimensions (LxWxH)	393 x 267 x 36 mm
(pieces 3) mm 20 x 100 x 100	Fan Dimensions
RPM ± 1500	Fan Speed
5V Input Voltage	DC
Current Rating	± 0.65 A
Power Rating	± 3.25 W
Weight	590 g

Installation Guide:

1. Place the cooling pad flat on a table, extend the retractable feet at the bottom of the pad for added tilt if desired, and position your laptop on top.
2. Connect the cooling pad to your laptop using the included USB cable, ensuring a secure and firm connection.

Operating Instructions:

1. To power on or off, press and hold the power button for 2 seconds. Tap the button briefly to cycle through the fan speeds, which include three settings.
2. To toggle the RGB lighting on or off, press the light button shortly for on, and press and hold it to switch the lights off.

Usage Guidelines:

1. Disassembly and repairs should only be performed by qualified technicians to prevent damage or voiding the warranty.
2. Use the provided power adapter or USB-DC cable to power the device.

Thank You Note and Precautions

Thank you for choosing our product! Please ensure to read the warranty information thoroughly following your purchase for confident use. We appreciate your cooperation.

Safety Precautions

1. Before use, inspect the product to ensure it's in optimal condition. Should you encounter any issues, contact your retailer or our customer service promptly.
2. To maximize the lifespan of the product, avoid placing it on irregular or moving surfaces.
3. For optimal performance, keep the product in an environment that is free from excessive dust and moisture.
