FM Transmitter 20W PD &
QC Bass Boost

SKU:PD-FM42WBB

Introduction

Thank you for selecting our Bluetooth FM Transmitter featuring a 5-way directional button. This device seamlessly streams music and manages calls directly from your Bluetooth-enabled device to your car's FM stereo system. Equipped with a built-in microphone for outstanding hands-free functionality, it also includes a USB port for playing your preferred MP3/WMA/WAV/FLAC files via the car's stereo system. Activate enhanced BASS with a single button for a superior audio experience. The intuitive 5-way directional button ensures effortless operation without distraction. Please consult the user manual thoroughly before use. We trust this device will enhance both the safety and enjoyment of your driving experience.

Precautions

Before use, review all safety instructions to avoid potential harm to this device or connected equipment. For optimal operation, avoid using the product in the following scenarios:
-Wet or submerged environments.
-Proximity to heaters or areas of high temperature.
-Direct and prolonged exposure to sunlight.
-Situations where the device is at risk of dropping.
-Unauthorized disassembly of the product, which may void the warranty.

Operation Instructions

Control Interface

- 1 USB Slot
- 2 LED Display
- 3 Five-way Directional Button (for call management and media playback)
- 4 QC 3.0 Charging Port
- 5 PD20W Charging Port
- 6 Bass Enhancement Button

- 7 Volume Increase
- 8 Volume Decrease
- 9 Previous Track/Frequency
- 10 Next Track/Frequency
- 11 Power Button (press and hold for on/off)
- 12 Channel Selection Button

Initial Setup

1. Connect the FM transmitter to your vehicle's cigarette lighter or power port.
2. Tune your car stereo to an unused FM frequency, matching the frequency of the unit.
3. Insert a USB drive loaded with MP3/WMA/APE/FLAC/WAV files into the USB slot to begin automatic playback through your car stereo system.

Using Bluetooth Function

- Pair your mobile device with the unit (identified as "Por-FM142") upon first use. If prompted, use the password "0000".
- The device automatically switches to call mode when an incoming call is detected during music playback.

Bluetooth Calling

- Press to answer calls.
- Hold to reject calls.
- Press twice to redial the last number.
- During a call, press to hang up or hold to switch to private mode.
- Dial out using your mobile device; once connected, the hands-free function is available.

Using USB Charger Function

Connect the USB charger port to your mobile device using a compatible USB cable (not included) while the unit is powered via the car lighter socket to charge your device.

Voltage Outputs

PD5 :3.0V/3A, 9V/2.22A, 12V/1.67A
PD5 :3.0V/3A, 9V/2.5A, 12V/2A
QC5 :3.0V/3A, 9V/2A, 12V/1.5A

Additional Features

Bass Button:

Enhances the bass output when activated.

Voice Assistant Activation:

Long press [logo] in Bluetooth mode to activate Siri or Google Assistant on your connected device.

Power Switch:

Hold the power button for 3 seconds to turn off the FM, display, and Bluetooth functions without interrupting charging. Press quickly to switch the audio source between Bluetooth and the USB drive.
