

Gaming Magsafe Condensing Charger

SKU:PDX624

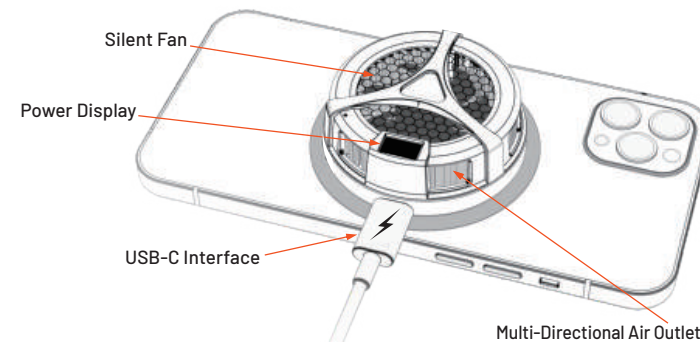

Instructions

Remove the mobile cooler from its packaging and magnetically attach it to the back of an iPhone 12 as indicated by the arrow in Figure. For other mobile phones, affix a transparent film and a metal iron sheet on the back before using the mobile cooler.

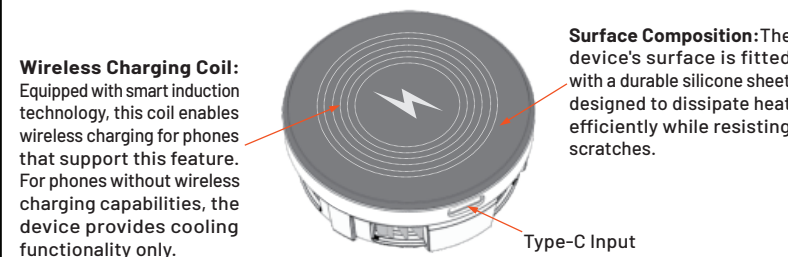

1

After mounting the cooler on your phone, connect the Type-C USB power cord. The fan starts immediately once the device is powered on, as the colored lights activate. Refer to Figure for visual guidance.

The advantages of this product include its compatibility with the cooling and ventilation requirements of many mobile phone models.

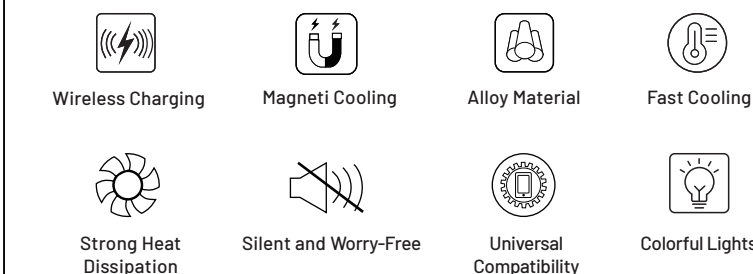

2

Product Parameters

Name: Semi-Conductor Mobile Cooling
Model: PDX624
Material: Polycarbonate (PC), Aluminum Alloy, Copper, Magnet
Interface: Type-C
Power Input: 9V/3A 15W
Size: 59.5x23mm Diameter
Weight: Approximately 64 grams
Color: Carbon Black

3

Note: Condensation, such as water vapor or droplets, may form during operation, which is a typical aspect of the cooling process and will not damage the phone.

Disclaimer: Specifications may vary between products. All images are for illustrative purposes only, and actual products should be referred to.

Safety Information

1. Do not disassemble or modify the cooler as it voids the warranty and could pose a hazard.
2. Avoid using or charging the cooler in extremely hot or humid conditions.
3. To preserve battery life, do not leave the cooler plugged in after it has reached full charge.
4. The cooler contains small parts; keep them away from children to prevent accidental swallowing.
