Multi-Port Power Delivery Quick-Charging Hub

Dual USB-C & USB-A

Model: PD-120TMCC-BK

Please read this instruction manual carefully before use and keep it properly.

1. Product Parameter

Brand: Porodo

Name: Multi-Port Power Delivery Quick Charging Hub

Model No.: PD-120TMCC-BK

Material: Aluminium Alloy+PC

Input: DC12-24V

USB-C1 Output: 5V=3A; 9V=3A; 12V=2.5A (30W Max.) PPS: 3.6-11V= 3A

USB-C2 Output: 5V=3A; 9V=3A; 12V=2.5A (30W Max.) PPS: 3.6-11V= 3A

USB-A1 Output: 5V=3A; 9V=2A; 12V=2.5A (30W Max.)

USB-A2 Output: 5V=3A; 9V=2A; 12V=2.5A (30W Max.)

USB-C1+USB-C2+USB-A1+USB-A2 Output: 30W+30W+30W+30W (120W Max.)

Applicable models: Most mainstream car models

Compatible equipment: Most mobile phones and digital products

Note: This product is only suitable for 12-24V car models, please do not use it for car with a voltage exceeding 24V to avoid irreversible failure of the product.

2. Product Diagram

3. Function Description

1. Multi-protocol Compatibility: The car charger supports multiple fast charging protocols such as QC4+/QC3.0/AFC/FCP/PD2.0/PD3.0/PPS/PE+1.1, and supports fast charging of smart phones, tablets and other devices.
2. Multi-port Independent Output: 2USB-C+2USB-A four-port independent output supports fast charging of four devices at the same time.
3. Rear Extended Design: The charger comes with an extension cable of about 1.5m to meet the charging needs of the front and rear rows of the car.
4. Intelligent Digital Display: The large curved digital display screen can easily monitor the battery voltage and grasp the status of the car in real time.

4. User Instruction

1. Please insert the multi-port car charger into the cigarette lighter interface in the car;
2. Please connect one end of the charging cable to the output port of the car charger, and connect the other end to the digital device you need to charge, then the device can be charged.

5. Precautions

1. Please use the car charger to charge after confirming that the car engine has been started.
2. Do not charge high-power equipment to avoid damage to the equipment due to excessive power
3. For your safety, please do not use the charger in any humid environment or thunderstorm weather.
4. Do not clean the charger with strong chemicals, cleaning agents, etc.
5. Please pull out the plug in time after use.
6. This product is an electronic product, please avoid strong drop or collision with the product.

6.Tips

1. Please read all instructions and precautions carefully before using this product. Irregular use will cause damage to the product itself or your personal safety.
2. If the personal and property damage caused by the consumer's violation of the product manual and improper use, you need to bear all the consequences by yourself, and the company will not bear any legal responsibility.
3. This product supports fast charging. In order to have a better fast charging experience, it is recommended that you use an official or certified original charging cable.

This equipment complies with the provisions of Directive 2012/19/EU. It is strictly forbidden to dispose of this equipment with general waste and must be recycled. This symbol indicates that this product cannot be used as regular domestic waste for disposal, and must be delivered to the corresponding waste recycling station that is capable

of recycling electrical and electronic equipment.

WARNING

Please follow the above safety instructions otherwise it will cause fire, electric shock, damage or other injury.
