FAQ:

1. MAC/ Mobile Phone Connection

① Mac Book Air:

Needs an extra Mini Display Port to HD adapter (not included).

② Mac Book Pro:

Needs an extra Type C to HD adapter (not included).

③ Android:

Needs an extra Micro USB to HD/Type C to HD adapter (not included).

④ iPhone:

Needs an extra Lightning to HD adapter (not included).

2. Blurry Image

① First, place the projector in a horizontal position about 4 feet away from the screen, recommended projection distance is 3.11 to 6.17 feet.

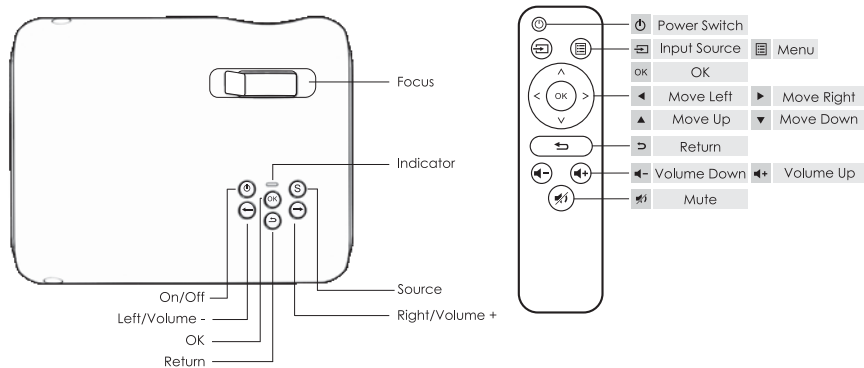

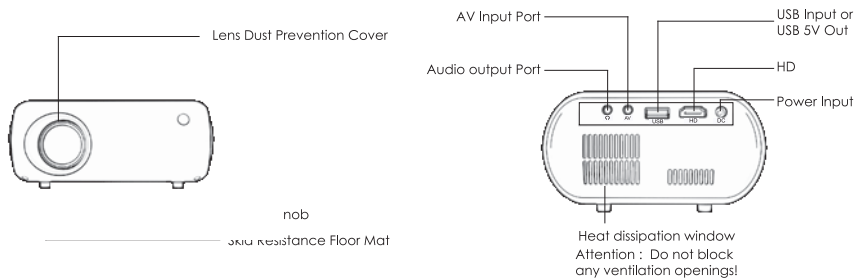

② Second, rotate the focus button to gain the best clarity and ideal screen size.

*Effective Projection Distance: 2.6-12.6 feet

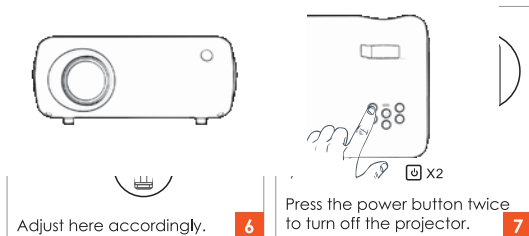

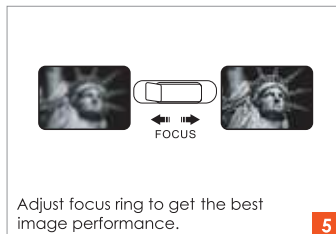

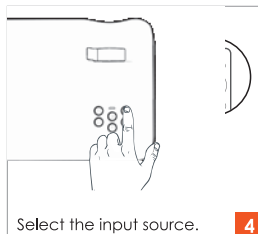

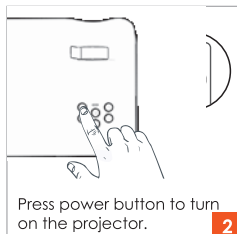

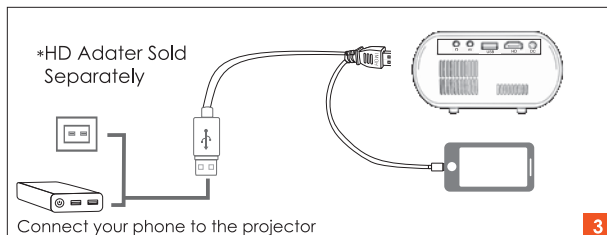

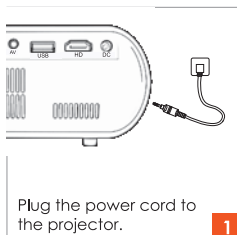

3. Mounting Hole

Adopting single mounting hole dual-use design, projector is compatible with the standard camera tripod and 1/4 inch screw projector tripod stand. Meanwhile, you can rotate up and down the screw to meet different height needs.

Product Function Structure Diagram

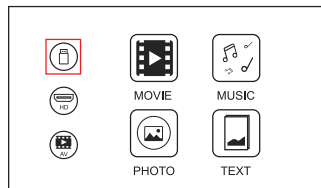

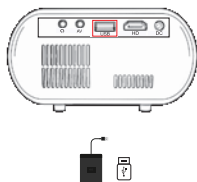

First Use

Important safety considerations

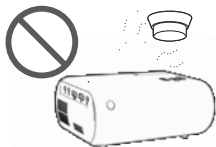

The following safety instructions ensure the long service life of the projector to avoid fire or electric shock. Make sure to carefully read them and pay attention to all the following warnings.

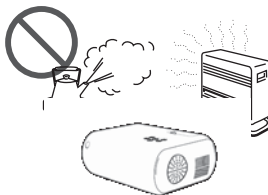

Do not install the projector in sites with improper ventilation.

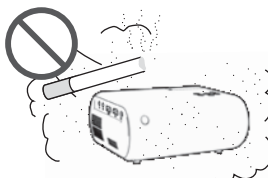

Do not block the ventilation holes (intake or exhaust)

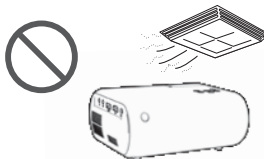

Do not install the projector near the temperature and smoke transducer. It may cause a sensor failure.

Do not install the projector in hot and humid sites.

Do not install the projector in dust and smoke sites.

Do not install the projector in sites with direct blowing of warm and cool air-condition wind. Otherwise it may cause the project failure due to moisture condensation or temperature increment.
