6. USB-A 3.0 5Gbps
7. SD/MMC card reader
8. TF card reader
9. Gigabit Ethernet
10. Audio 3.5mm (3 pins / 4pins)

## FAQ

### 1. HDMI output doesn't work

A USB-C port that supports "DP ALT Mode" (DisplayPort Alternate Mode) or a Thunderbolt 3 port is required, otherwise the HDMI output will not work.

### 2. USB-C port can't transmit data

USB-C port is only for PD 100W charge, No Data transmission.

### 3. I can't charge my device via USB-C port

USB-C port should support "Power Delivery"

### 4. Cards reader can't read cards

The card reader can only read one card per time. Please extract all cards and only insert one card per time.

### 5. Ethernet doesn't work

Maybe you need to install driver in your operating system. Please visit [www.aisenstech.com](http://www.aisenstech.com) to download the drivers.

## SERVICE COMMITMENT
