800W Blender Grinder

Aluminum Housing
Glass Jug

Model: PD-LSBLGR-BK

Read this booklet carefully before using and keep for future reference

Important Safeguards

When using the electrical appliance, the below basic safety precautions should be followed:

1. Read all instructions.
2. Before using check that the voltage power corresponds to the one shown on the appliance nameplate.
4. Do not let cord hang over edge of table or counter.
5. Do not operate any appliance with a damage cord or plug or after the appliance malfunction or has been damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair or adjustment.
6. Use by children not intended but foreseeable, but only allowed with supervision.
7. Avoid contacting moving parts.
8. Blades are sharp, so handle carefully.
9. The use of attachment, including Jar, lid, not recommended or sold by manufacture may cause fire, electric shock or injury.
10. The appliance cannot be used for blending hard and dry substance, otherwise the blade could be blunted.
11. Switch off the appliance before approaching parts which move in use.
12. Be sure to turn switch to 0 position after each use. Make sure the motor stop completely before disassembling. And the power supply cord plug is removed from outlet.
13. This appliance is not intended for used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliances by a person responsible for their safety.
14. Children should be supervised to ensure that they do not play with the appliance.
15. Do not immerse the Motor Unit into water or other liquids.
16. Do not use outdoors.
17. Save these instructions

Household Use Only

Know your Blender

For the initial use

1. Unpack the appliance and place all parts on a horizontal surface.
2. Immerse jar, jar cover, in warm soapy water and rinse them and dry. Never immerse motor unit in water for cleaning to prevent the risk of electric shock.

Caution: the blade is very sharp, handle with great care.

3. The correct assembly way will be described in detail in below sections.

Before assembling the jar, be sure the power cord is unplugged from the power outlet and the Switch button is on the 0 position.

The jar is suitable for making mixture which the juice and pulp are mixed.

For attaching Jar, Place the Jar into the motor unit directly in place, (see fig.1).

Note: make sure the Jar is assembled into the motor unit properly, there is interlock switch on the position, if the Jar is not assembled properly, the blender will not operate.

Blending fruit and vegetable:

1. Before attaching the power cord into the outlet, make sure the Switch button is in the 0 position.

2. Peeled or cored the fruit or vegetables and then cut it into small dices, put the food piece into the Jar. Usually certain amount of purified water has to be added to facilitate the smooth running of appliance. The proportion of the food and water is 2:3. The amount of mixture should not exceed the max level as indicated on the Jar.

Note: never use boiling liquids or run the appliance empty. The Jar can be used for breaking up ice.

3. Replace the Jar cover on the Jar. Turn the Jar cover into the Jar.

4. Turn the Switch button to the desired setting, there are five settings: P, 0, 1, 2. Turn switch to P position and hold it to pulse actuate motor for delicate chopping. Release it to return the 0 position.

5. The consecutive operation time shall less than 2 minutes. Minimum 1 minutes rest period is required between two consecutive cycles.

7. Turn the Switch button to 0 Position once the mixture has been blended to your desired consistency.

8. Remove the Jar from the Motor Unit (remove it by directly upward), carefully take down the Jar cover, then pour and serve

Grinder Operation

1. Lay the motor unit on the flat horizontal surface and make sure it is unplugged.

2. Fill the grinding bowl with proper coffee bean, then assemble the grinding blade assembly and grinding bowl together. Please see Fig.3

NOTE: The quantity of coffee bean the grinding bowl allows to grind is Max 60g.

3. Place the grinder attachment on the motor unit, Turn the bowl clockwise until a click will be heard when locked into position properly. Please see Fig. 4

NOTE: There is a safety interlock device at the bottom of bowl, if the bowl is not assembled in place, the chopper will not operate.

4. Ensure the Speed Selector to "0" Position, then plug into power outlet.

5. Select the desired speed setting, the appliance will start grinding. During grinding, you can press down the Pulse button without releasing it if want to accelerate the process of grinding.

6. Turn the Speed Selector to "0" Position once the coffee has been ground to your desired result.

7. Disconnect from power supply once finished. Disassemble the grinder attachment from the unit, keep the grinding bowl downward and turn it anticlockwise (see fig.5), then empty the bowl and serve.

8. Do not run the appliance for more than 30s per time, and only

wait until the unit is cooled to room temperature before performing next operation cycle.

Cleaning and Maintenance

The Auto Clean feature can clean the blender and blade assembly easily, rapidly in complete safety.

- Pour a little warm soapy water into the Jar and turn the Switch button to P position for a few seconds.

- Remove the Jar from the motor unit by directly taking it upward and rinse the Jar, Jar cover under running water.

- Wiping the outer surface of Motor Unit with a damp cloth, do not use abrasive cleansers. Never immerse in water for cleaning

- Dry all parts and then replace them

For complete cleaning, you can hold the blade assembly at the bottom of jar carefully, for it is sharp, take it out by turning coupling on the other side clockwise emphatically (see Fig.2), then put the detachable accessories into Dishwasher for clean, they are dishwasher safe components, but the temperature setting shall not exceed 70ℱ.

If any problem has been encountered during use never disassemble the Motor Base by yourself, no user serviceable parts inside. Contact only the authorized service facility for examination and repair.

For grinder

1. Detach the bowl base from the grinding blade assembly.

NOTE: While detaching, only grasp the unsharp part of grinding blade or wear glove to prevent any injuries.

2. Immerse the blade, bowl base and grinding bowl into warm soapy water for cleaning, and then rinse them under running water.

3. Wipe the outer surface with damp cloth.

NOTE: Never immerse the motor unit into water for cleaning.

4. Dry all parts thoroughly and assemble them in position.

Environment friendly disposal

You can help protect the environment!

Please remember to respect the local regulations: hand in the non-working electrical equipments to an appropriate waste disposal center.
