Indicator Light Guide

A blinking white LED light during wireless charging indicates a charging failure. The following situations can cause issues, such as slow charging, charging interruption, or overheating at the charging position:

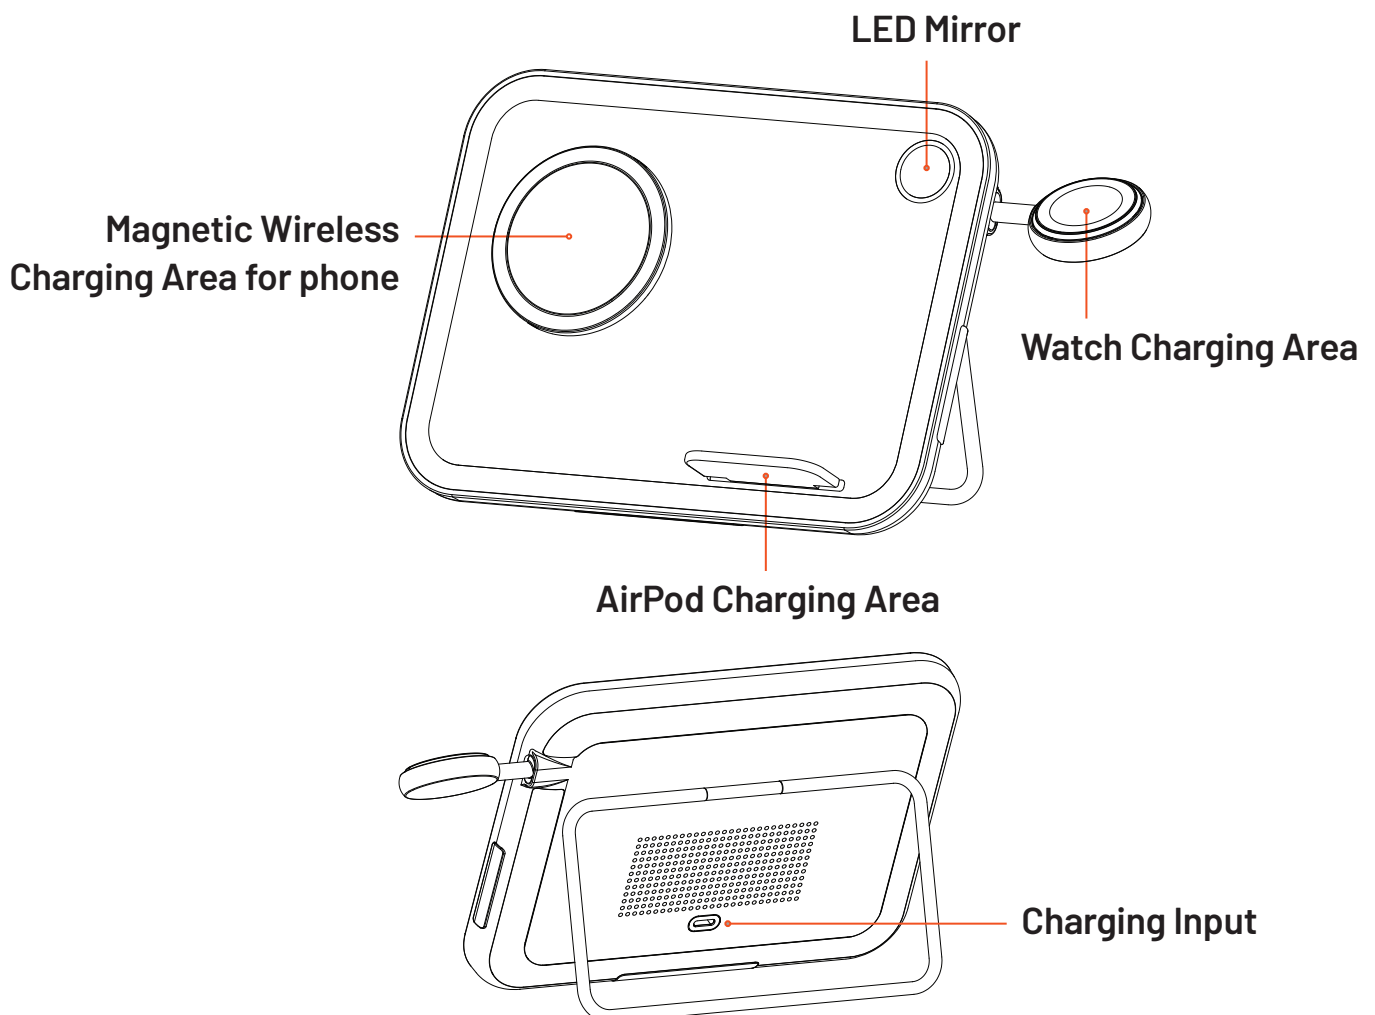

1. The adapter does not meet the required standard.

2. The charging cable does not meet the required standard.
3. The phone case is too thick (it is recommended to use a case with a thickness of less than 2mm).
4. The built-in wireless charging receiver position does not align with the wireless charger coil position.
5. There is metal or a magnet on the back of the cell phone or phone case.
6. The smartphone does not support wireless charging.

Attention

1. Keep the charger away from water or any other liquids.
2. When cleaning the charger, ensure that it is not connected to a power supply.
3. Operating temperature: -20°C to 45°C.
4. Keep the charger out of reach of children.
