PRODUCT SPECIFICATIONS

Name	: Adamant Nite Keeper LED Camping Light
Light source	: 2835 SMD+COB
Modes	: High-red light flashing-low
Switch	: Lighting switch+TOP LED switch : High/low/strobe
TOP LED Modes	: Built in 4400 mAh lithium battery : USB charging
Battery Charging	: Cell phone charger

CHARGING

Take out the charging cable, insert the plug into the corresponding socket and insert the USB plug into the camping light's charging port. After the power is connected, the red light will flash, which indicates normal charging. When the battery is full, the red light remains on.

IMPORTANT SAFETY INSTRUCTIONS

- To avoid eye injury, do not point the light directly at the eyes.
- To avoid damage to the reflective cup or bulb, avoid disassembling the light cap frequently.
- Do not expose the light to corrosive materials. If it does come into contact with such materials, wipe and clean immediately and then air dry.
- Do not place the light in direct sunlight or use in a high temperature environment.
- Do not allow the light to heat to more than 212°F.
- Do not discard or soak the light in water.
- Ensure correct battery use, handling and disposal. If the battery is used, handled or disposed of incorrectly, there is a risk of explosion as it contains lithium.
- Dispose of the battery as per local and state guidelines. Only a qualified technician should disassemble or work
