PORTABLE HANDHELD
TURBO FAN WITH COLD COMPRESS
MODEL: PD-LSHCCF

Product photographs

Instructions for use

Key function operation: click the fan key, and the blue light comes on, Click to move up one gear at a time, and then click the button to stop after the third gear

Refrigeration key function operation: (Refrigeration can only be started when the fan is started) Click the key to start cooling, the white light will light up, and click again to turn off cooling and light. The red light is always on when charging, and the red light is off when full charging

Duration of fan
About 8 hours for gear 1; About 4 hours for gear 2; About 3 hours for gear 3; Refrigeration for about 1-1.5 hours

Product parameters

Input voltage: DC 5V=

Input current: 800mA(+20%)

Battery voltage: 3.7V

Battery power: 8.14W

Battery capacity: 2200mAh

Material: ABS/ movement alloy/stainless handle/
electronic components

Charging time: about 3 hours

Working time: 1.5- 8hours.

Product size: 65 x 71 x 170mm

Product weigh: 200g

Executive standard: GB4706.1-2005 GB4706.48-2009

Quality control: qualified products

Made in China
CE RoHS
COMPLIANT

Product List

Cold compress fan x 1, base x 1, USB-C charging cable x 1, manual x 1

Precautions

1. Please check whether the voltage of this product is normal before use;
2. It is strictly forbidden to disassemble the product privately or use it roughly;
3. It is strictly forbidden to put the product into or near the fire source to avoid the danger of fire and explosion;
4. Please keep the product in a place where children or pets cannot reach;
5. When supplying power to the product, please use a charger with an output current of 5V/1A, and use the standard Type-C charging cable;
6. Do not put your fingers or hard objects into the air inlet/outlet to avoid being hurt by the internal fan blades and damage the product;
7. During the use of the product, if any abnormality occurs, please stop using it immediately.

Battery warning

1. It is forbidden to disassemble, impact, squeeze or put into fire. If there is serious swelling, do not continue to use it, and do not place the product in a high temperature environment
2. Do not use the battery after being immersed in water
3. This product is a small fan of lithium battery. The battery replacement can only be replaced by the factory or a qualified supplier. If the battery is not replaced according to the instructions in this manual, we will not be responsible for any loss or impact.
4. This product contains lithium batteries, which should be disposed of separately from household waste. In order to reduce pollution and protect the global environment to the greatest extent, please recycle them.
