Overview

Before using the product, please carefully read this User Manual to ensure proper usage and keep it for future reference. This mobile power supply features a durable aluminum alloy and plastic shell. It supports both Apple and Type-C inputs and is equipped with a built-in Type-C PD output port. This allows you to connect and charge other mobile devices, while the magnetic wireless charging function provides an efficient and convenient way to charge the device.

Product Diagram

1. Power Switch / Fan Control Switch
2. Type-C Interface
3. Lightning Interface
4. Magnetic Wireless Charger

Specifications

Battery Capacity	10000mAh
Fan Speed	10000RPM
USB-C Input	5V/3A, 9V/2A, 12V/1.5A, 18W
USB-C Output	5V/3A, 9V/2.2A, 10V/2A, 12V/1.67A, 20W
Lightning Input	5V/2A, 10W
Wireless Output	5W/ 7.5W/ 10W/ 15W
Working Temperature	0°C~40°C
Product Size	70 x 20 x 115mm
Product Weight	204g
Model Number	PB083

Instructions for Use

1. The Type-C input port allows you to charge the power bank.
2. Use Type-C and wireless charging to charge your mobile devices.
3. Press the button to turn on the power bank. If wireless charging is enabled, the wireless indicator light will be displayed.
4. When using magnetic suction wireless charging, press and hold the button to stop the fan from rotating, while the wireless charging function continues to operate normally.
5. To completely power off the power bank, double-click the power button. The power bank will turn off within 3 seconds.

Precautions

1. For optimal performance, charge and discharge once before first use to improve the product's service life.
2. Please read all the instructions carefully before using the product.
3. Do not disassemble the product, as this will void the warranty.
4. Keep the product away from children to prevent accidents or misuse.
5. Avoid dropping the product or exposing it to impacts, as this may damage the device.
6. Ensure the device you want to charge is compatible with the product's specifications to avoid damage.
7. Do not use the product in extreme conditions such as high temperatures, humidity, or direct sunlight to prevent damage and ensure safe operation.

Troubleshooting

Problem	Possible Cause	Solution
The product charged for a long time, but the screen does not display a full charge.	1. The charging time is insufficient. 2. The charger or product may be malfunctioning.	1. Charge the product for a longer period. 2. Contact the customer service center for assistance.
The remaining power of the product cannot be checked.	1. The remaining power is depleted. 2. There is a failure with the power button or indicator light. 3. The product has experienced a power failure.	1. Recharge the product. 2. Contact the customer service center for support.
When charging other devices, the product is unable to fully charge them.	The product has run out of power.	Recharge the product to restore functionality.
The product has remaining power, but when connected to an external power supply, it suddenly stops working and cannot display the power level.	A short-circuit or too much load has triggered the product's automatic protection.	Recharge the product to power it on.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
