Product Overview

The Porodo LARA 50000mAh Power Bank is the ultimate solution for staying powered up on the go. Featuring integrated cables and a built-in flashlight, it combines practicality with high performance. With its 50000mAh capacity, you can charge your devices multiple times, making it ideal for travel or extended use. The portable handle adds convenience, while its universal compatibility ensures it works with most smartphones and gadgets. Offering fast charging at 20W, it delivers a quick power boost when you need it most. Whether you're traveling, outdoors, or just need a reliable power source, the LARA Power Bank is designed to keep you connected and ready for anything.

Specifications

Battery Capacity	80000mAh
USB-C1 Input	5V/2.1A
USB-C2 Input	5V/3A, 9V/2.22A, 12V/1.67A
USB Line Input	5V/2.1A
USB-C2 Output	5V/3A, 9V/2.22A, 12V/1.67A
USB-A3/2/1 Output	5V/2.1A
USB-A4 Output	5V/3A, 9V/2.22A, 10V/2.25A, 12V/1.67A
Micro Line Output	5V/2A
Lightning Line Output	5V/2.1A
Type-C Line Output	5V/2.1A
Sharing Output	5V/3A, 15W Max
Product Weight	1580g

Product Size	82 x 94 x 146mm
Model Number	PDPBJ301

Key Features

1. **Ultra-High Capacity (80000mAh):** Equipped with an impressive 80000mAh battery, this power bank can charge multiple devices several times, making it ideal for long trips, emergencies, or heavy users.
2. **Integrated Cables:** Built-in cables provide convenience and eliminate the hassle of carrying extra wires, ensuring you can charge on the go without searching for accessories.
3. **20W PD Fast Charging:** Supports Power Delivery 20W output for fast and efficient charging, reducing downtime and getting your devices back to full power quickly.
4. **Flashlight Function:** A built-in flashlight adds utility, making it useful for outdoor use, camping, or emergencies.
5. **Portable Handle:** Comes with an ergonomic handle for easy carrying, making it practical for travel and everyday portability.
6. **Universal Compatibility:** Designed to work seamlessly with smartphones, tablets, laptops, and other USB-powered devices.
7. **Built-In Safety Features:** Advanced protection against overcharging, overheating, and short-circuiting ensures safe and reliable charging for all your devices.

Digital Display

- 1. Battery Check:** To check the remaining battery level, press the power button once. The power display will show the current battery status.
- 2. Turn Off Power Display:** To turn off the power display, press the power button again. This will deactivate the display to save energy when not in use.

Usage Instructions

- 1. Light Control:** Press and hold the button to turn the flashlight on or off. This allows easy access to a light source when needed.
- 2. Charging the Power Bank:** The power bank can be recharged either through the built-in USB cable or by using a personal Type-C cable with a maximum input of PD20W. During the charging process, the battery indicator will display the progress. Once the device is fully charged, it is recommended to unplug the power supply to maintain battery performance and extend its lifespan.
- 3. Charging Mobile Devices:** Mobile devices can be charged by connecting them to the built-in Micro USB, Lightning, or Type-C cable, each supporting a maximum output of PD20W. Alternatively, charging can be performed using a USB-A to USB-C or USB-A1/A2/A3 adapter if required. Certain brands or models may need additional cables for compatibility. When charging multiple devices simultaneously, the total maximum charging speed is limited to 5V/3A, ensuring efficient and stable operation across all devices.

Safety Precautions

- 1.** If the power bank becomes uncomfortably hot or reaches excessive temperatures during use or while charging, it is critical to disconnect it from both the power supply and any mobile devices without delay. This is important to prevent potential damage to the power bank, connected devices, or even to ensure user safety. Allow the power bank to cool down naturally in a well-

ventilated area before reconnecting or resuming use.

- 2.** Do not use or charge the power bank in excessively hot or humid environments.
- 3.** Always use the correct cable for charging your devices. Using incompatible cables may cause overheating or damage.
- 4.** Ensure the charging port is clean and free from debris before connecting any cables.
- 5.** Do not expose the power bank to water, rain, or other liquids. It is not water-resistant and may malfunction or become damaged when wet.
- 6.** Store the power bank in a cool, dry place when not in use. Avoid direct sunlight and high-temperature areas such as next to radiators or in cars.
- 7.** Keep the power bank away from flammable materials to prevent any risk of fire.
- 8.** Do not attempt to open, disassemble, or repair the power bank yourself. Contact authorized service centers for any repairs or issues. Unauthorized disassembly may void the warranty and cause safety hazards, such as electrical shocks or battery leakage.
- 9.** Do not use the power bank if the cable or the power bank itself is damaged. A short-circuit or overload can occur if the power bank is not functioning properly.
- 10.** If the power bank is excessively hot or showing signs of swelling, stop using it immediately and dispose of it responsibly.
- 11.** Handle the power bank gently to avoid accidental drops or impacts. Physical damage can affect the performance or safety of the battery.
- 12.** Keep Away from Children: Keep the power bank out of reach of children to avoid accidental ingestion or injury from misuse.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
