Product Overview

The Porodo Robovibe Smart Car Aroma Diffuser combines innovative technology with stylish design to transform your car's air quality. Equipped with animated pixel displays, it offers a fun and dynamic visual experience, bringing a touch of personality to your vehicle. With customizable fragrance intensity levels, you can control the strength of the aroma to suit your preferences, while the diffuser works instantly to freshen the air. Whether you're driving through traffic or on a long road trip, the Robovibe ensures a clean, fresh, and pleasant environment, making every journey more enjoyable. Its sleek and modern design seamlessly fits into any car interior, adding a touch of sophistication while keeping the air fresh and deodorized.

Specifications

Input	5V/1A
Battery Capacity	300mAh
Operating Temperature	0°C ~ 60°C
Charging Interface	USB-C
Recommended Usage	Car Cup Holder & Small Indoor Spaces
Oil Tank Capacity	50ML
Model Number	PDLSLN2219

Product Features

1. Animated Pixel Display:

The air diffuser is equipped with a dynamic animated pixel display that adds a playful, personalized touch to your space. The pixel display showcases heart-shaped animations, making it an engaging addition to any environment.

2. Four Fragrance Intensity Levels:

Adjust the fragrance intensity based on your preference, from light to stronger scents. The four levels allow you to customize your experience depending on your needs, whether you're in a small space or looking for a stronger fragrance burst.

3. Instant Freshness:

This air diffuser is designed to freshen the air immediately, creating a pleasant atmosphere wherever it's used. It's perfect for small spaces like car cup holders or desks, bringing a refreshing vibe instantly with every use.

4. Oil Tank Capacity:

With a 50ML oil tank capacity, this diffuser offers enough space to hold essential oils or other fragrance liquids. It allows for extended use without the need for frequent refills, providing convenience for long-term use.

5. Portable and Compact Design:

Its compact size and portability make it ideal for use in small indoor spaces, such as cars or small rooms. Whether you're commuting or working at your desk, it brings a pleasant scent without taking up much space.

6. USB-C Charging Interface:

The diffuser uses a USB-C charging port for fast and efficient recharging. This modern charging interface ensures quick power-ups, making it ready to use in no time.

7. Wide Operating Temperature Range:

The air diffuser operates in a wide temperature range from 0°C to 60°C, ensuring its functionality across different environments and seasons.

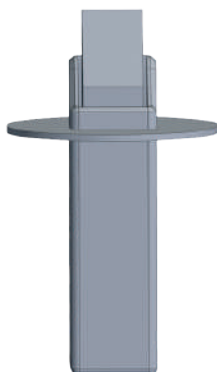

8. Easy to Use:

Simple operation with minimal settings, allowing users to enjoy a hassle-free experience when freshening up their space.

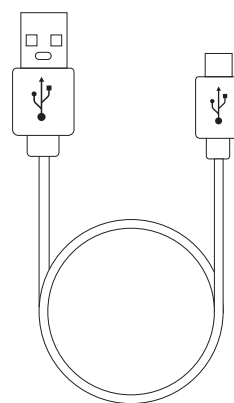

Package Contents

Aroma Diffuser

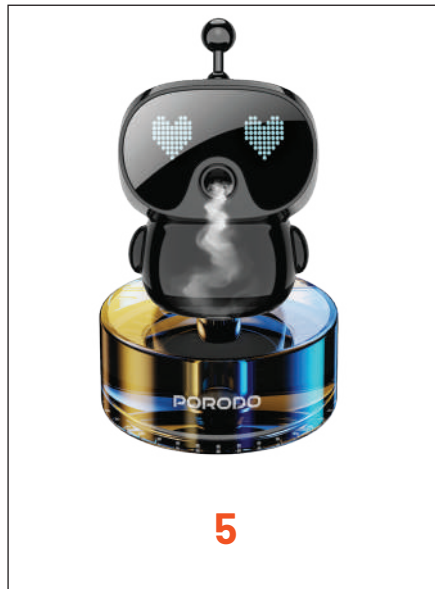

Duct Cotton Core

USB Type-C Cable

Installation Guide

- 1.** Unscrew the product cover. Begin by removing the product's cover to access the interior.
- 2.** Remove the essential oil bottle stopper. Gently pull off the stopper from the essential oil bottle to prepare it for use.
- 3.** Align the inclined duct cotton with the square core hole and insert it. Position the inclined duct cotton so that it fits properly into the square hole. Insert it carefully to ensure a secure connection.
- 4.** Tighten the lid. Once the duct cotton is in place, screw the lid back on tightly to secure the contents and prevent leaks.
- 5.** Installation is complete. The product is now ready for use once the lid is securely tightened.
- 6.** Place steadily and do not tilt or invert. Position the product on a flat surface and avoid tilting or inverting it to ensure optimal function and prevent spillage.

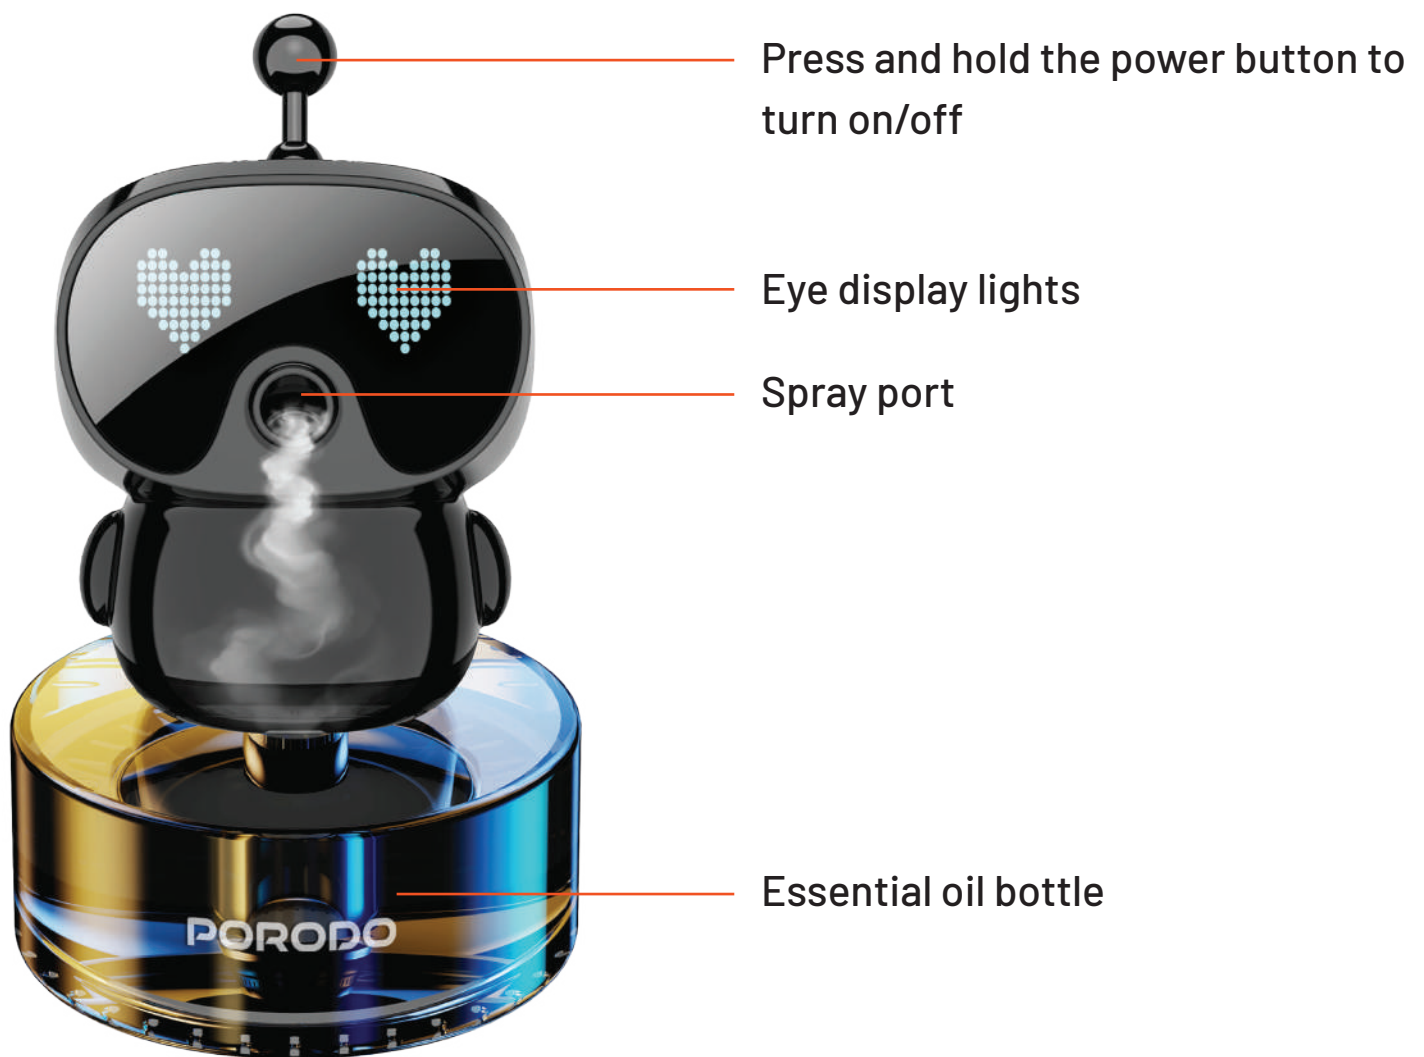

Operating Instructions

- 1.** To turn the device on or off, press and hold the power button for 3 seconds. The default power mode is set to Gear 1, where the fragrance is sprayed every 3 seconds. To change the mode, press the power button briefly to switch

between gears. Gear 2 sprays fragrance every 1 minute, Gear 3 every 3 minutes, and Gear 4 also sprays every 3 minutes but is not limited by the vibration switch. Gear 4 will continue spraying until the battery runs out. For gears 1-3, fragrance spraying is controlled by the vibration sensor, and it will spray when the sensor is triggered.

2. For lighting, Level 1 displays a red light, Level 2 shows a blue light, Level 3 indicates a green light, and Level 4 has a purple light. The device can be used continuously for 30 hours when fully charged. If the battery is low, the red light will flash, and when fully charged, the yellow light stays on.

3. When the essential oil bottle is less than 3/1 full, it should be replenished to ensure the device works properly. If the oil level is too low, the spray effect will not function correctly.

Safety Precautions

1. Always store the product vertically during use to prevent essential oils from overflowing. Avoid tipping the device over.
2. Essential oils are not edible. Keep the product away from children and pets.
3. Avoid contact with skin and eyes. If the oils accidentally get into the eyes, rinse with water and seek medical attention immediately.
4. Seal the essential oil bottle and store it in a dark place when not in use. Do not open it if you're not using it.
5. Essential oils will gradually evaporate over time. Replenish the oil as needed to maintain effectiveness.
6. Do not allow essential oils to drip onto oily paint, leather, or fabric surfaces to avoid damage. If spillage occurs, clean it immediately to prevent corrosion.
7. The main body of the aromatherapy device is durable and can be used for a long time. After the essential oil evaporates, simply replace or refill it as needed.

Battery-Related Instructions

This product contains a built-in lithium battery. Please follow these important guidelines to ensure safety and prolong the battery's life:

1. Charging and Storage:

Always charge the product promptly when the battery is low. If the product will not be used for an extended period, turn it on every 3 months until the battery is fully drained, and then fully charge it. This helps prevent battery damage. Additionally, it is recommended to use and store the product within an appropriate temperature range to maintain battery health.

2. Handling and Safety:

Disassembling, impacting, compressing, or exposing the product to fire is strictly prohibited. If the battery becomes swollen, cease use immediately. Do

not place the product in high-temperature environments, as this can cause battery damage. If you notice a significant reduction in battery life, do not continue using the product. Instead, have it inspected and repaired by a professional.

3. Battery Replacement:

Do not attempt to replace the battery yourself. Improper replacement can result in serious risks, including explosion. If the battery needs to be replaced, please have it done by a certified professional to ensure safety.

4. Temperature and Disposal:

The product's built-in battery is not designed to be used or stored in environments exceeding 65°C (149°F). Never dispose of the product inappropriately, such as throwing it into fire or garbage. Always follow local disposal regulations for electronic waste to ensure safe and environmentally responsible disposal.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
