Product Overview

The Porodo 4-in-1 Powerdock Wireless Charging Station is the ultimate charging solution designed to simplify your life. It features multi-device charging capabilities, allowing you to charge your smartphone, smartwatch, and wireless earbuds all at once with a 15W power output for fast charging. The station is equipped with a 360° adjustable viewing angle, ensuring you can easily access and view your devices while they charge. In addition, the integrated adjustable night lamp adds extra convenience, providing soft, ambient light for your space. To ensure the safety of your devices, it also includes smart charging protection, preventing overheating and overcharging. This sleek and compact charging station is perfect for anyone looking to keep their devices organized, powered, and ready to go.

Specifications

Input	9V/3A
Phone Output	5W / 7.5W / 10W / 15W
Earbuds Output	3W Max
Watch Output	2.5W Max
Cable Included	1m Type-C Cable
Product Weight	320g
Product Size	77.8 x 124 x 142.7mm
Model Number	PDXHX3

1. Mobile Phone Charging Area

a. Suitable for iPhone 8 and above

b. suitable for mobile phones that are compatible with the Qi wireless charging standard

2. Earphone Charging Area

a. Suitable for Airpods Pro 2/3/4 (wireless only)

b. Suitable for TWS Bluetooth earpods that are compatible with Qi wireless charging standard

3. Smartwatch Charging Area Suitable for Apple Watch series

4. Night Lamp

5. Night Lamp Touch Switch

a. Press once for 50% brightness warm light

b. Press twice for 100% brightness warm light

c. Press three times to turn off the light

NOTE: Please pay attention to the following guidelines to ensure proper charging performance. Failure to follow these may result in abnormal charging, high temperatures, intermittent charging, or no charging at all.

Frequently Asked Questions

1. Where should I place my device for optimal charging?
Place your phone, watch, or TWS earphones at the center of the charging area.
2. How can I achieve fast charging?
Use chargers that support QC18W/PD20W or higher to supply power to the wireless charger.
3. Is there a limit to the charging distance?
The charging distance is 0–2mm. Please avoid using protective cases thicker than 2mm, as magnetic and metal attachments or credit cards may affect charging stability. Remove them before charging.

4. Does the device have temperature control?

Yes, the watch has a temperature control feature. If the temperature exceeds 45°C, charging will stop automatically. Once the temperature returns to normal, charging will resume.

5. How does temperature affect charging speed?

The lower the temperature, the faster the charging speed. Charging is faster in cooler environments than in warmer ones.

6. Are there any environmental restrictions for charging?

Please avoid charging in high-temperature or humid environments to prevent damage to the circuit.

7. Should I keep the charger out of reach of children?

Yes, to avoid unnecessary accidents, keep the charger out of reach of children.

8. Should I avoid certain environments for charging?

Keep the charger away from flammable or explosive liquids or gases.

9. What should I do if I experience issues with the wireless charger?

If you encounter any issues, please contact our customer service. We will offer you the best solution within 24 hours. Your safety and experience are our top priority.

Safety Precautions

1. Avoid Exposure to Moisture: Keep the charging station away from water, humidity, or wet conditions to avoid electrical hazards or damage to the device.

2. Use with Certified Devices Only: Only use Qi-enabled devices for wireless charging to ensure compatibility and avoid overheating or malfunctioning.

3. Do Not Disassemble: Do not attempt to open or disassemble the charging station as it could cause electric shock, fire hazard, or void the warranty.

- 4. Proper Ventilation:** Ensure the charging station has adequate ventilation to avoid overheating. Do not cover or block the cooling vents.
- 5. Use in Dry Locations:** Ensure the device is used in a dry environment to prevent electric shock.
- 6. Avoid High-Temperature Environments:** Keep the charging station away from heat sources and direct sunlight to maintain its efficiency and prevent damage.
- 7. Keep Away from Children:** Do not allow children to handle or operate the charging station unsupervised.
- 8. Unplug When Not in Use:** Disconnect the charging station from the power source when not in use for extended periods to conserve energy and prevent potential hazards.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
