Product Features

1. Strong Vacuum Suction Base

Equipped with a powerful vacuum suction system, the mount adheres firmly to smooth and flat surfaces, ensuring maximum stability without slipping or detaching. Ideal for both car dashboards and desks.

2. 360° Rotating Base

The fully rotatable base allows you to adjust the viewing angle freely, providing optimal visibility for navigation, calls, or entertainment. You can easily switch between portrait and landscape modes.

3. Effortless Multi-Angle Adjustment

The folding arm design enables smooth angle adjustments to suit your preferred position, whether you're driving, working, or video calling. It provides flexibility and comfort at every angle.

4. One-Handed Operation

Designed with convenience in mind, the magnetic mount allows you to attach or remove your phone effortlessly using just one hand, making it perfect for on-the-go use.

5. Strong Magnetic Hold

Featuring high-quality built-in magnets, the mount securely holds your device in place—even during sudden movements or bumpy rides—offering a stable and reliable grip.

6. Compact and Foldable Design

Its sleek and foldable build makes it easy to store or carry while maintaining a premium look that complements any environment.

7. Durable and Premium Build Quality

Crafted from robust materials, the mount is built to last, ensuring long-term performance without losing its suction power or magnetic strength over time.

Usage Instructions

- 1.** Ensure the surface is clean, smooth, and even before installation.
- 2.** Remove the phone case if it has magnetic attraction, or attach the provided magnetizing sheet to the back of your case.
- 3.** The free magnetizing sheet is designed for use only on the back of the phone or case and should not be attached to the stand.
- 4.** For non-magnetic phones or cases, affix the magnetizer securely to the case.
- 5.** If the mounting surface is uneven or not completely flat, use the included flat auxiliary sticker for better stability.

Setup Guide

1. Prepare the Suction Cup

Before using the mount, remove the protective film from the suction cup. This ensures a clean and secure attachment to any smooth surface.

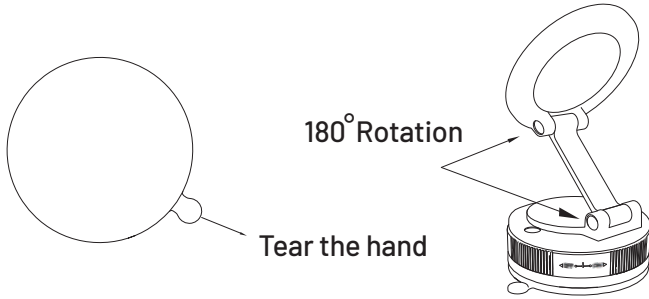

2. Mount the Suction Base

- a.** Place the suction cup firmly against a smooth, flat surface.

- b.** Press down slightly to secure it, then twist the large striped screw cap clockwise to lock the base in place. (Note: The screw cap may rotate freely even when locked—this is normal.)
- c.** To adjust the position, the mount can be rotated up to 180° for the ideal viewing angle.

3. Unlocking and Removal

When you need to remove or reposition the mount, twist the large striped screw cap counterclockwise to unlock it. Then, gently pull the suction cup tab to release the vacuum seal. If needed, pull the sticker slightly harder to fully detach the mount.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
