Product Overview

The Porodo Blue ClipMic Pro Wireless Microphone offers seamless and professional-grade audio recording for various devices. Designed with instant auto-pairing and universal device compatibility, this microphone ensures quick setup and broad usability. It features noise-canceling technology, delivering clear, crisp sound even in noisy environments, making sure your voice is heard with precision. With its long-distance transmission capabilities, you can enjoy uninterrupted performance while recording. The compact and portable design allows for easy carrying and usage on the go, while the omnidirectional sound ensures clear audio from any angle. Perfect for anyone looking for a hassle-free, high-quality wireless microphone solution for video shoots, interviews, podcasts, or any mobile recording needs.

Specifications

Input Voltage	DC 5V
Microphone Battery Capacity	60mAh Lithium-Ion
Charging Interface	USB-C
Recharge Time	1.5H
Battery Life	6H
Transmission Range	10m
Frequency Response	20Hz-20kHz
Wireless Technology	2.4GHZ
Receiver Output	USB-C
Product Size	13.9 x 14.3 x46mm
Product Weight	5.94g
Model Number	PBMX1C

FCC Compliance Information

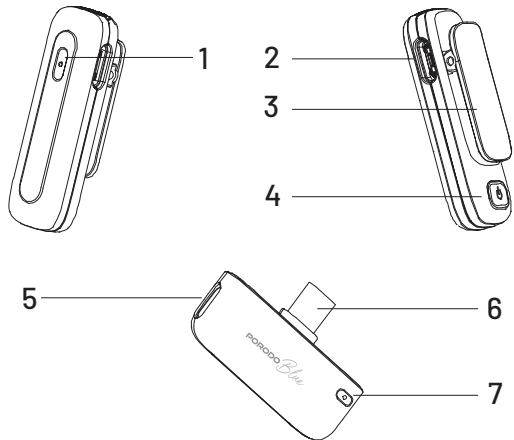

This equipment has been tested and complies with the limits for Class B digital devices, as outlined in Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is installed and operated as per the instructions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, it can be identified by turning the equipment on and off. To resolve the issue, the user may try one or more of the following steps:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for assistance.

WARNING: Unauthorized modifications not expressly approved by the manufacturer may void the user's authority to operate the equipment.

Schematic View

1. TX Indicator Light
2. TX Charging Port
3. Clip
4. TX Function Key
5. RX Charging Port, Digital
6. Receiver Connector
7. RX Indicator Light

Usage Instructions

1. Turn on the indicator light

Press and hold the function key on the transmitter (TX) for 1 second. The indicator light will flash alternately.

2. Pair the transmitter and receiver

Insert the receiver (RX) into the device. The receiver's red light will flash, indicating it is pairing.

3. Successful pairing

After successful pairing, the transmitter's green light will stay on, and the receiver's red light will remain on. The wireless microphone is now ready for normal use.

Important Note:

When used for amplification, please adjust the volume and distance appropriately to avoid severe whistling.

Transmitter Functions

Key Function	Implementation Status	Operate	Pilot Lamp
Power on	Shutdown status	Long Press the TX function key for 1 seconds	Traffic lights flash alternately
Shutdown	1. Power on status	1. Long Press the TX function key for 2 seconds	1. No flashing lights
	2. Power on status	2. Automatic shutdown if not connected to RX for 1 minute	2. No flashing lights
Pair with RX	Power on status	Press and hold the TX function key for 1 second to turn on the device, then plug the RX into the phone's charging port. The TX and RX will automatically pair and connect.	After connecting TX and RX, the TX green light stays on and the RX red light stays on
Disconnect	Standby	Unplug RX or TX to shut down	Disconnect and TX traffic lights flash alternately, RX red light flashes
Function Keys	1.Noise reduction	default	1. Default three-level noise reduction, no switching function
	2. mute	Click TX	2. Green light flashing slowly
	3. reverberation	Double click TX	3. Red light flashes once
Low Battery Alarm	Power on status	When the battery voltage is below 3.3V	Red light flashing
Low Power Shutdown	In various startup states	When the battery voltage drops below 3.1V, the earphones will automatically shut down	No flashing lights
Charge	In various startup states	Connect the charger	The charging red light stays on and turns off when fully charged

Safety Precautions

- 1. Keep away from water:** Do not expose the microphone to moisture or liquids to prevent damage to the electronic components.
- 2. Avoid extreme temperatures:** Store and use the microphone in environments with moderate temperatures. Excessive heat or cold can affect performance and battery life.
- 3. Handle with care:** Ensure the microphone is not dropped or subjected to strong impacts, as this could cause internal damage.
- 4. Use with compatible devices:** Only connect the microphone to devices that are compatible with the wireless system to avoid potential damage.
- 5. Clean with a dry cloth:** Use a soft, dry cloth to clean the microphone. Avoid using any abrasive materials that could scratch the surface.
- 6. Charging safety:** Use the provided charging cable and adapter for charging. Do not use third-party chargers, as they may not be compatible and could cause malfunctions.
- 7. Turn off when not in use:** To preserve battery life and prevent unnecessary wear, turn off the microphone when not in use.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
