Product Overview

The Porodo DAX-L Dual MagSafe Car Phone Mount is designed to securely hold two phones in your vehicle with a strong suction base, ensuring stability during use. It features an adjustable telescopic arm that allows for customization of height and positioning, providing convenience for optimal viewing. The mount is equipped with a multi-surface mounting capability, making it suitable for various surfaces in your car. The integrated lock and release function ensures the phones stay securely in place while driving, and the 360-degree adjustable arm allows for flexible positioning. With fifteen powerful magnets, the mount offers a reliable and sturdy grip, ensuring your phones remain securely attached. The DAX-L is an ideal solution for those seeking a reliable and versatile phone mount in their vehicle.

Specifications

| | |
|----------------|---------|
| Material | ABS |
| Load Capacity | 1kg |
| Magnet Type | N52 |
| Product Weight | 202g |
| Model Number | PDCT077 |

Product Features

- a. Dual Phone Holder:** The mount can hold two phones simultaneously, providing a convenient solution for users with multiple devices.
- b. Strong Suction Base:** The mount features a powerful suction base that ensures it stays securely in place on various surfaces, providing stable support while driving.
- c. Adjustable Arm:** The telescopic arm can be adjusted for height, offering flexible positioning and ease of use for different vehicle setups.
- d. 360° Rotation:** The mount allows the phone to rotate 360 degrees, offering a full range of motion for optimal viewing angles.
- e. Lock & Release Function:** The easy-to-use lock and release mechanism ensures that phones can be securely attached or quickly removed without hassle.
- f. Multi-Surface Mounting:** The mount is designed to be compatible with a variety of surfaces in your car, allowing for versatile installation options.
- g. 15 Strong Magnets:** With 15 magnets, the mount provides a firm grip, ensuring the phones stay securely attached even during movement.

Instructions for Use

- 1. Prepare the Surface:** Before installation, ensure that the surface where you plan to mount the device is clean, smooth, and dry. Wipe away any dust, dirt, or oil to ensure a strong hold.
- 2. Attach the Suction Base:** Place the suction base of the mount on the chosen surface. Press it down firmly to ensure it attaches securely. For best results, ensure the surface is free from cracks or imperfections.
- 3. Adjust the Arm:** The mount features an adjustable arm. Extend or retract the arm to your preferred height and position for better visibility. Adjust the angle to suit your needs.

- 4. Place the Phones:** Align your phones with the MagSafe holders. Place each phone gently into the magnetic holder to ensure a secure attachment. The strong magnets will hold the phones in place.
- 5. Adjust the Viewing Angle:** The mount allows for 360-degree rotation. Adjust the phones to the desired viewing angle, whether in portrait or landscape mode.
- 6. Check Security:** Before driving, verify that both phones are securely attached to the mount and will not move or fall off during motion.
- 7. Release the Phones:** To remove the phones, simply pull them away from the mount. If you need to detach the mount, lift the edge of the suction base to release it from the surface.
- 8. Storing the Mount:** When not in use, carefully remove the mount from the vehicle and store it in a safe place. Keep the suction base clean for future use.

Cleaning and Maintenance

- 1. Cleaning the Suction Base:** To maintain the suction power, regularly clean the suction base with a soft, damp cloth. Gently wipe away dust, dirt, or residue that may have accumulated.
- 2. Avoid Harsh Chemicals:** When cleaning, avoid using harsh chemicals, abrasive cleaners, or solvents that could damage the mount's surface or suction base. A mild soap solution and water are sufficient for cleaning.
- 3. Dry the Mount:** After cleaning, make sure the mount and suction base are completely dry before reattaching it to a surface to ensure a strong grip.
- 4. Check for Wear and Tear:** Periodically inspect the mount and suction base for any signs of damage or wear. If any part appears damaged, discontinue use and replace the mount to avoid potential issues during use.
- 5. Storage:** When not in use, store the mount in a cool, dry place. Avoid leaving it exposed to direct sunlight or extreme temperatures, as this could degrade the material and affect its functionality.

Safety Precautions

- 1. Secure Mounting:** Before use, ensure the suction base is securely attached to a clean, smooth, and dry surface. Avoid mounting the device on surfaces with cracks, dirt, or oil, as these can reduce the suction strength.
- 2. Avoid Obstruction:** Do not mount the phone in a position that obstructs the driver's view or interferes with vehicle controls such as airbags, the steering wheel, or the rearview mirror.
- 3. Phone Compatibility:** Only use the mount with phones that are compatible with MagSafe technology. Ensure the phone is properly attached and stable before driving.
- 4. Weight Limit:** Do not overload the mount. Ensure that the weight of both phones is within the recommended limit to prevent instability and damage to the mount.
- 5. Pre-Driving Check:** Before driving, always check that both phones are securely locked into the mount and will not move or fall off during transit.
- 6. Use as Intended:** The mount should only be used for its intended purpose—holding phones in a vehicle. Do not attempt to modify or disassemble the product.
- 7. Avoid Extreme Temperatures:** Do not expose the mount to extreme heat or cold, such as direct sunlight for long periods, which could weaken the suction base or damage the mount.
- 8. Dry Conditions:** Ensure the mount is used only in dry environments. Avoid exposure to moisture, as it can affect the suction base and mount stability.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
