Product Overview

The Porodo 360° Swivel Magnetic Car Mount is a reliable and practical solution for securely holding your smartphone or GPS device in your car. With its strong magnetic hold, it ensures that your device stays firmly in place, even on uneven or bumpy roads. The mount offers a 360° adjustable viewing angle, allowing you to find the perfect position for easy access to your device while driving. Its multi-angle swivel design further enhances convenience by enabling flexible device positioning. The mount is easy to install without the need for tools, making it a hassle-free solution for hands-free driving. This car mount is designed to keep your device secure and within view, improving safety and ease of use during your journey.

Specifications

Material	Zinc Alloy
Magnetic Force	3200Gauss
Magnet Type	N35
Number of Magnets	5
Product Weight	53.2g
Model Number	PD4CDMGM

Product Features

- a. Strong Magnetic Hold: The Porodo 360° Swivel Magnetic Car Mount ensures that your device stays securely attached, even on bumpy roads or during sudden movements, preventing it from slipping or falling.
- b. 360° Adjustable Viewing Angle: This mount allows you to easily adjust the angle of your device, providing an optimal viewing experience for navigation,

hands-free calls, or media while driving.

c. Multi-Angle Swivel: The mount offers flexible positioning, enabling you to swivel your device to different angles, ensuring maximum convenience and usability.

d. Quick Installation: The mount can be quickly and easily installed without the need for any tools, saving you both time and effort while ensuring a secure fit.

e. Universal Compatibility: Designed to be compatible with most smartphones and GPS devices, this mount provides a versatile solution for various users and devices.

f. Compact and Sleek Design: Its compact design ensures that the mount blends seamlessly with your car's interior, offering a clean and space-efficient look without obstructing your view.

g. Durable Construction: Built to withstand the demands of daily use, the mount's durable construction ensures long-lasting performance and reliability in holding your device securely.

Instructions for Use

1. Prepare the Mount: Ensure that the car mount and your device are clean and free of dust or dirt before use. This will ensure a secure attachment and prevent any damage to your device.

2. Attach the Mount: Choose a suitable location on your car's dashboard or windshield where the mount can be firmly placed. Clean the area with a soft cloth to remove any dust or debris. Peel off the adhesive backing from the mount and press it firmly onto the chosen spot. Hold it in place for a few seconds to ensure a strong bond.

3. Place Your Device: Place your device onto the mount, and the strong magnetic hold will secure it in place.

4. Adjust the Viewing Angle: Use the 360° adjustable swivel feature to position your device at the desired angle for optimal viewing. Adjust it as needed for easy navigation or hands-free calls.

5. Use Your Device Safely: While driving, ensure that your device is positioned in a way that does not obstruct your view of the road. Always prioritize safety and avoid distractions while using your device.

- 6. Removal and Repositioning:** To remove the mount, gently pull it off the surface. If you wish to reposition it, clean the new surface area and repeat the attachment process.
- 7. Maintenance:** Periodically check that the mount remains securely attached to your car's dashboard or windshield. Clean both the mount and your device to maintain a strong magnetic hold.

Safety Precautions

- 1. Avoid Obstructing Your View:** Ensure that the car mount and your device are positioned in a way that does not obstruct your view of the road. Always place the mount in a location that allows for safe and unobstructed driving.
- 2. Secure Attachment:** Before driving, check that the mount is firmly attached to the dashboard or windshield. A weak or insecure attachment may cause the device to fall, creating a distraction or potential hazard.
- 3. Proper Device Placement:** Always ensure that your device is properly attached to the mount and that the magnetic hold is secure. Do not place heavy or overly large devices that may strain the mount.
- 4. Avoid Excessive Vibrations:** While the mount is designed to hold your device securely, excessive vibrations from rough roads may affect its stability. Regularly check the mount and device during long trips to ensure they remain securely attached.
- 5. Do Not Use While Driving:** For your safety, avoid adjusting the device or mount while driving. Always adjust your device before starting your journey or while the car is safely parked.
- 6. Keep Away from Airbags:** Do not place the mount in an area where it could interfere with airbag deployment. This includes areas near the steering wheel, passenger side, or other critical safety zones.
- 7. Avoid Extreme Temperatures:** Avoid using the mount in extremely hot or cold environments as this may affect the adhesive strength and overall performance. Always store your mount in a temperature-controlled environment when not in use.
- 8. Children and Pets:** Keep the mount and your device out of reach of children and pets to avoid accidental damage or distraction.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference; and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
