Product Overview

The Porodo Blue Magnetic Phone Mount offers a reliable and secure solution for mounting your phone while driving. With its strong suction and double-layer N52 magnet, this phone mount provides a firm grip on your device, ensuring that it stays in place even during rough drives. Designed for one-handed operation, this phone mount allows for easy placement and removal of your phone, making it highly convenient for drivers. The flexible viewing angle ensures that you can adjust the phone's position for optimal visibility, whether for navigation or hands-free calls. The magnetic phone mount is compact and lightweight, weighing only 99 grams, and its sleek design fits seamlessly into any vehicle's interior space.

Specifications

Magnet Type	Double-layer N52
Net Weight	99g
Product Size	61 x 92mm
Model Number	HS32

Product Features

1. The Porodo Blue Magnetic Phone Mount features a robust suction base that securely attaches to your car’s dashboard or any smooth, flat surface. This strong suction ensures that the mount stays firmly in place even on bumpy roads, preventing any accidental slippage or detachment.
2. Equipped with a double-layer N52 magnet, the phone mount provides an exceptionally strong magnetic hold. This powerful magnet ensures that your phone remains securely attached, even during sharp turns or sudden stops, preventing it from falling or shifting out of place.

3. Designed for ease of use, this phone mount allows you to mount and remove your device with just one hand. This feature is especially convenient while driving, as it helps you keep your focus on the road and minimize distractions, ensuring safe and quick phone handling.
4. The mount offers a flexible viewing angle, allowing you to adjust your phone to find the optimal position. Whether you're using GPS navigation, making hands-free calls, or just need a comfortable viewing angle for your screen, you can easily adjust the mount to suit your needs.
5. Weighing just 99 grams, the Porodo Blue Magnetic Phone Mount is both lightweight and compact, making it easy to carry, install, and move between vehicles. Its small size ensures that it won't take up too much space in your car, keeping the dashboard clutter-free while still offering a strong hold.
6. The mount is designed to be universally compatible with most smartphones, from small devices to larger models. The powerful magnet ensures that it can securely hold a wide variety of phones, making it a versatile choice for different users and vehicles.
7. Built with high-quality materials, the Porodo Blue Magnetic Phone Mount is crafted to last. It can withstand daily wear and tear, ensuring long-lasting durability even after regular use. The mount's design is made to be resistant to damage, ensuring it continues to perform well over time.

Safety Precautions

1. Before using the phone mount, make sure it is securely attached to a clean, flat, and dry surface. A weak or improper installation could result in the mount coming off during use, leading to potential damage to your phone or vehicle.
2. Avoid mounting the device near direct heat sources, such as air vents or in areas exposed to direct sunlight for long periods. Excessive heat can affect the adhesive and suction strength of the mount.
3. Periodically clean both the suction surface and the magnetic mount to ensure optimal performance. Dust or dirt buildup may weaken the suction and magnetic grip.

4. Ensure the mount is placed in a location that does not obstruct your view while driving. Avoid placing it in areas that may block the windshield or distract you from the road.
5. Always verify that the phone mount is stable and properly aligned before placing your phone. An unstable or misaligned mount can affect the safety of both the device and the driver.
6. If your phone is equipped with a metal case or cover, it may interfere with the magnet's ability to hold the phone securely. Use a case that is compatible with magnetic mounts for better performance.
7. For optimal performance, remove your phone from the mount when it is not in use. This prevents unnecessary strain on the mount's magnetic hold and ensures longer durability.
8. If the mount shows any signs of damage, such as cracks or weakened suction, discontinue use and replace it to avoid safety risks.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
