## Product Overview

The Porodo Soundtec Dream TWS Earbuds combine innovative features for a unique listening experience. These earbuds provide immersive audio quality while offering a built-in skin massager, enhancing your relaxation and comfort. With USB-C charging, the earbuds ensure quick and convenient power-up. Designed with an ergonomic fit, the earbuds are built to stay securely in place while you enjoy your music. They are also water-resistant with an IPX4 rating, making them ideal for various environments. The earbuds feature a 3-mode vibration function, allowing you to customize your experience. With 4-5 hours of playtime, they are perfect for extended use, whether you're working, exercising, or relaxing.

## Earbud Specifications

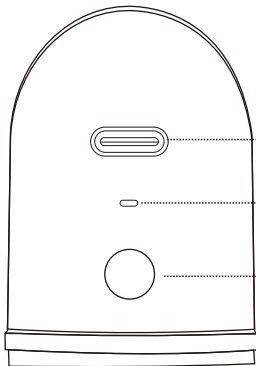

Material	ABS+PC Metal
Input	200mA
Working Current	8mA
Battery Capacity	340mAh (Case), 28mAh (Earbuds)
Standby Time	20 Days
Working Time	4-5h
Charging Time	1.5h
Bluetooth Version	V5.3
Transmission Range	10m
Water Resistance	IPX4
Working Temperature	-10°C to +55°C

## Massager Specifications

Working Time	1.5h Max
Motor Speed	8000rpm
Vibration Modes	3 Levels
Charging Interface	USB-C
Product Weight	75g
Product Size	35 x 98.3mm
Product Number	PDS13

## Product design

1. The charger is not included in the package. Please charge the speaker with a rated 5V/1A charger or through a PC.
2. Charging time is approximately 5 hours.
3. This unit does not have a power bank function. Do not charge other devices or connect them via the USB port.
4. To protect the battery, avoid using the speaker while it is charging.

Charging Input

LED Indicator

Power/Mode Switch Button

1. Press and hold for 3 seconds to turn on/off.
2. Press shortly to switch between three vibration speeds.

## Operation Instructions

### 1. Headphone Prompt Switching:

The red and white lights of a single headset will flash when turned on. Before the Bluetooth connection with the phone is established, touch the headset twice in succession to switch between Chinese and English voice prompts.

### 2. Dual Earbud Setup:

a. Turn both earbuds on simultaneously. The red and white lights will alternate for about 6 seconds. The system will automatically pair the earbuds, with the main channel defaulting to continuous flashing lights. The other earbud will show red and white lights, indicating the TWS pairing has been successful.

### 3. Bluetooth Pairing

b. Once paired, turn on your phone's Bluetooth to search for a connection.

c. Search for "PDS13BG" in the available devices and pair.

d. After pairing, the lights will stop flashing.

### 4. Bluetooth Reconnection

Once Bluetooth is successfully paired with your phone, the phone will not delete the pairing. If you restart the headset, it will automatically pair and reconnect (or when the headset is inserted into the charging case, it will reconnect automatically).

## Button Functions

1. Power On: Press and hold the touch button for about 5 seconds. The red and white lights will alternate, signaling that the earbuds are turned on.

2. Power Off: Press and hold the touch button for about 3 seconds. The red light of the headset will flash three times, followed by a "shutdown" sound.

3. Disconnecting: The red light will flash, and the headset will indicate a disconnection when Bluetooth is turned off, and it will automatically shut down within five minutes.

4. Play/Pause Operation: When the headset is connected, and it is in standby mode, click the touch area to play music, and touch again to pause the song.

5. **Song Switching Operation:** When the headset is connected to play a song, double-click the touch area on the right ear to skip to the next song, or double-click the touch button on the left ear to return to the previous song.
6. **Call Answering/Dialing:** After connecting the headset, touch and click once to answer an incoming call, and click once again to hang up after the call ends.
7. **Volume Operation:** During the process of connecting the headset to play or talk, press the left ear touch button three times to reduce the volume, and press the right ear touch button three times to increase the volume.
8. **Rejecting Incoming Calls:** To reject an incoming call, press the touch button twice to decline the call.
9. **Call Voice Assistant:** After the headset is connected and the standby process is over, long-press the touch button for 1.5 seconds to activate the voice assistant (SIRI function).

## **Message Instructions**

1. Press and hold for 3 seconds to turn on the machine. The default vibration speed is low. The device applies a gentle force suitable for the face.
2. Press once to switch to medium speed.
3. Press again to select high-speed amplitude.
4. You can cycle through the three force levels.
5. When the vibration massage is finished, long-press for 3 seconds to turn off the device.

## **FCC Statement**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
    - (1) This device may not cause harmful interference; and
    - (2) This device must accept any interference received, including interference that may cause undesired operation.
  2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- Note:** This equipment has been tested and found to comply with the limits for a

Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

## Safety Precautions

1. If the Bluetooth headset is not used for a long time, please charge it fully and recharge it at least once a week to extend the service life of the Bluetooth headset.
2. Do not place the Bluetooth headset near a fire source.
3. Do not place the Bluetooth headset and charging case next to inflammable and explosive items.
4. Use a standard DC charger (DC 5V/500mA-2A) to charge the charging chamber.
5. Do not disassemble the charging chamber and Bluetooth headset or insert it into the wrong port to avoid damage or injury.
6. Do not place near fire.

7. Do not let metal products contact or short-circuit the electrode.
8. Do not touch or squeeze the battery.
9. Avoid placing the device in a humid, corrosive environment or overheating (>60°C).

## **Disposal**

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
